OF THE

STATE OF IDAHO

RE

Statihern Region Office .

OCT 1987 Depertment of Water Resources

IN THE MATTER OF REMOVING THE MEASURING DEVICE REQUIREMENT FOR PERMIT NO. 72-7277 IN THE NAME OF BARBARA METZ

ORDER

WHEREAS, on September 26, 1984 the Department of Water Resources issued Permit No. 72-7277 in the name of Mickey &/or Barbara Garcia (later assigned to Barbara Metz) with the requirement that:

> A lockable device, subject to the approval of the Department, shall be installed on the diverting works in a manner that will provide the watermaster suitable control of the diversion;

and,

WHEREAS, on May 7, 1987 the Department received a request from the permit holder to remove the measuring device requirement; and,

WHEREAS, the Department of Water Resources has determined that a lockable device is not required at this time for a determination of the quantity of water appropriated under the permit;

NOW, THEREFORE, the condition of approval on Permit No. 72-7277 requiring that a lockable device be installed and maintained is hereby REMOVED; however, the condition requiring a lockable device may be reinstated in the future if the Department determines that such a device is necessary to insure proper distribution of the water.

Dated this **23** day of _ 1987.

GLEN SAXTON Chief, Operations Bureau

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. ________, and said application is hereby ________

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or be-

fore <u>September 1</u>, 19<u>89</u>.

- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

A lockable device, subject to the approval of the Department, shall be installed on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Use of water under this permit is subject to control by the watermaster of State Water District No. 72B, Garden Creek.

Witness my hand this $\frac{26}{16}$ day of September, 1984.
