Justin,

On September 1st, the order granting the delay in processing of Linderman's application for permit, 47-17664 expires. I am not sure how you want to proceed moving forward.

Let me know,

Corey

We need a written request (similar to the letter we received in August of last year).

Corey

Thanks for the reminder. We need to file for another extension if we could. The parties are still in negotiation and I met as recently as last Thursday with Mr. Brown. Do you need more than this to give us a little more time with an extension? Thanks for your help.

JDee

Subject: Lindeman Application for Permit 47-17664

Mr. May,

As you recall, IDWR issued an order (see attached) regarding Application for Permit 47-17664, in the name of Robert & Jana Linderman. The order granted a delay in processing of the application until today (Feb 25, 2019). I assume they want to file for another extension request. Note that per the order, an additional request needs to include an update on the status of the application. As an alternative, they could withdraw their application. I have attached a withdrawal form, just in case.

Corey
