

MEMORANDUM

Date: April 30, 2020
To: Transfer 84036
From: Jake Nebeker
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to change the point of diversion for water right 35-14059. No other aspects of the water right are proposed to change. The proposed point of diversion is an existing well on the applicants' property. The proposed point of diversion is the authorized point of diversion for water right 35-11011 and is regulated by WD120 (WMIS #501018).

Authority to File:

Vilate Gardner is the current owner of record for water right 35-14059. Applicants provided a deeds confirming ownership of the existing place of use for water right 35-14059. Applicants propose to update ownership of the right through the transfer.

Water Right Validity:

No issue identified. Water right was decreed in the SRBA in 2002. According to 2004, 2006, 2009, 2013, and 2015 aerial photography the place of use has been irrigated.

Injury to Other Water Rights:

The transfer application was advertised and no protests were received. The water master was notified of the application and did not provide a comment.

Enlargement of Use:

No issues identified.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
