Re: Legal Notice Not Required

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

Application proposed to remove water right place of use from properties not owned by Applicant. The Department provided direct notice of the application to the owners of these properties (Kevin and Julee Wing, Jeffrey and Angela Keller). Both of these property owners filed protests against the application. The protests were resolved by leaving a portion of the water rights on the properties. A 3-acre proportionate share of all rights were kept on the Wing property. An ownership change reflecting this split was completed prior to the transfer approval. A full supply (0.38 cfs, 19 acres) share of water right 34-14365 was kept on the Keller property. The Keller ownership change was also completed prior to the transfer approval.
