Dear Mr. Holmes:

Enclosed are completed relinquishment forms for Applications for Permit No. 37-7834 and 71-7060. The water development described by Permit No. 37-7834 was planned but never constructed due to recent budget limitations. The well described by Permit No. 71-7060 was constructed, but because of water quality problems, was never put to beneficial use.

The water development described by Permit No. 71-7053 is in place and has been put to beneficial use. However, the location of the well was inaccurately described in the application. An amended application will be submitted to your office shortly.

Sincerely,

T.A. ROEDERER
