WATER RESOURCES WESTERN REGION

February 5, 2020

Patrick Kelly Western Region Office Idaho Department of Water Resources 2735 Airport Way Boise, ID 83705

Subject: Change of Ownership - 63-27399, 63-24161, 63-24162, 63-26086

Dear Patrick,

On behalf of Jesse and Julie Prather, and David and Kathleen Weitz, enclosed please find water right change of ownership documents for the above referenced water rights.

Prior to April 2016, the Prathers and the Weitzes co-owned the land to which these water rights are appurtenant. In 2016, the land was formally divided as detailed on the enclosed quitclaim deeds and legal descriptions. As a result of the land division, the Prathers now own the land with the following appurtenant water rights: 63-24161, 63-24162, and a 45.4% portion of 63-27399. The Weitz own land with appurtenant water right 63-26086 and a 54.6% portion of water right 63-27399.

Ownership change documents for the Prathers are enclosed with a check for \$150 (two undivided rights and a split right). Documents for the Weitzes are enclosed with a check for \$125 (one undivided right and a split right).

Please contact me with any questions.

Sincerely,

Terry M. Scanlan, P.E., P.G.

RE: Change in Ownership for Water Right No(s): 63-26086, 63-27399

Dear Interested Parties:

The Department of Water Resources (Western) acknowledges receipt of your Notice of Change in Water Right Ownership.

Our review of your Notice indicates that additional information is required before the Department can process the change. The information required is indicated below:

Evidence of Water Right Ownership: copy of Deed, Title Policy, Contract of Sale, or other legal document indicating your ownership of the property and/or water rights in question

The Quitclaim Deed submitted was found to be insufficient evidence of ownership, as the grantor's name does not match the water right holder of record. When submitting a Quitclaim Deed, the Department requires a chain of title that goes back to the water right holder/claimant of record. You may obtain this information from the assessor's office in the county where the property is located.

Because the Department cannot process the Notice without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed.

Also, please note that permit holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Forms to assign ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions regarding this matter, please contact our office at (208) 334-2190.

Sincerely

Lynne Evans

Re: Change in Water Right Ownership: 63-26086, 63-27399 (split into 63-27399 and 63-34877)

Dear Water Right Holders:

The Department of Water Resources (Western) acknowledges the receipt of correspondence changing ownership of the above referenced water rights to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Water right no. 63-26086 has been changed to your ownership in its entirety. Water right no. 63-27399 has been split, and you have been assigned the portion no. 63-27399, which retains the original water right number. The other party has been assigned the portion no. 63-34877.

Your portion of each water right has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning this matter, please contact our office at (208) 334-2190.

Sincerely,

Lynne Evans
