Application for Amendment No. 47-7614  
Easterday, Janet M.

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES  
OF THE  
STATE OF IDAHO

IN THE MATTER OF PROTESTS AGAINST APPROVAL  
OF APPLICATION FOR PERMIT NO. 47-7614 IN  
THE NAME OF JANET M. EASTERDAY

MEMORANDUM DECISION

AND ORDER

On January 4, 1980, Janet M. Easterday filed an application for permit with the Department of Water Resources to appropriate 6.35 cubic feet per second of water from a groundwater source. The application proposed to divert the water by means of a well located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ , Sec. 2, Twp. 10S, Rge. 13E, B.M., Twin Falls County, and use it for the irrigation of 317.8 acres within the E $\frac{1}{2}$ SW $\frac{1}{4}$ , Sec. 34, Twp. 9S, Rge. 13E; NW $\frac{1}{4}$ , N $\frac{1}{2}$ SW $\frac{1}{4}$ , Sec. 3, Twp. 10S, Rge. 13E B.M.

Notice of the application was published in the Twin Falls Times News on January 24 and 31, 1980.

On February 7, 1980, a protest was received from Magic Water Company, Inc. The issues raised in the protest are as follows:

- 1) That the proposed well would reduce the quantity of water in Salmon Falls Creek and would reduce springs flowing into Salmon Falls Creek.
- 2) That the water supply is insufficient for the purpose for which it is sought to be appropriated.
- 3) That the application is not made in good faith and is made for delay and/or speculative purposes.
- 4) That the applicant lacks sufficient financial resources to complete the work involved.

On March 19, 1980, the Department received a letter from the protestant's attorney allowing the Director of the Department to issue a decision in the matter without a hearing.

Based upon the information in the records of the Department and his understanding of the law, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

- 1) The well location proposed by the applicant is not within the boundaries of a critical groundwater area.
- 2) Studies done by the Department and published as Bulletin #20, Water Resources of the Blue Gulch Area show that insufficient groundwater supplies exist

47-7614

on the west side of Salmon Falls Creek where the place of use is located. Studies published as Department of Water Resources Bulletin #22, Water Resources of the Twin Falls Tract also show there is considerable inflow from groundwater to Salmon Falls Creek from the east side as a result of irrigation on the Twin Falls tract.

3) There is a confining layer between water bearing strata in the Idavada volcanic formation located about 500 feet below land surface.

4) The applicant has filed Desert Land Entry No. I-2010 on the land described in the application.

#### CONCLUSIONS OF LAW

1) The applicant is entitled to a permit to appropriate groundwater subject to any prior water rights that may be affected by the appropriation.

2) The well must be constructed with unperforated casing to a depth of 500 feet and in a manner that will prevent the depletion of water from Salmon Falls Creek.

#### ORDER

IT IS, THEREFORE, HEREBY ORDERED that Application for Permit No. 47-7614 is APPROVED subject to the following conditions:

1) Subject to all prior water rights.

2) Proof of construction of works and application of water to beneficial use shall be submitted on or before November 1, 1985.

3) The well must be cased with unperforated casing into a confining layer below the first aquifer in order to prevent interference with surface flows in Salmon Falls Creek.

4) An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Dated this 3 day of December, 1980.
