

APPLICATION FOR TEMPORARY APPROVAL OF WATER USE

For a use not intended to become an established water right and not to exceed one (1) year in duration in accordance with Idaho Code § 42-202A.

Name of applicant Bogus Basin Recreational Association Phone (208) 332-5100
Mailing address 2600 Bogus Basin Rd City Boise
State ID Zip 83702 Email bwilson@bogusbasin.org

1. Source of water Ground Water tributary to _____
2. Location of point(s) of diversion. If more than two, attach a Point of Diversion/Place of Use Supplement. ☐

TWP	RGE	SEC	GOVT LOT	1/4	1/4	1/4	County	Source	Local name or tag #
05N	03E	16			SW	NE	Boise	Ground Water	

3. Location of place of use. If more rows are needed, attach a Point of Diversion/Place of Use Supplement. ☐

TWP	RGE	SEC	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
05N	03E	16											X						3.67

4. Proposed use of water:
a. ☐ Prevention of flood damage ☐ Ground water recharge ☐ Ground water or surface water remediation
☒ Other (Limited to a diverted volume of 5 acre-feet.) Describe: Temporary irrigation below pond to establish roots
b. Attach a detailed description of how the proposal will accomplish the intended objective, such as prevention of flood damage.
5. Amount of water. Complete all three:
a. Maximum rate of diversion: 0.02 cfs; or _____ gpm.
b. Maximum daily volume: .04 AF; or _____ gallons.
c. Maximum volume over the duration of the request: 5 (see attached) AF; or _____ gallons.
6. Duration of diversion: from June 1 (month-day) to September 15 (month-day).
7. Describe proposed diverting works: See attached
8. a. Who owns the property at the requested point of diversion? Bogus Basin
b. Who owns the facilities that will convey water to the place of use? Bogus Basin
c. Who owns the land to be irrigated or place of use? Bogus Basin
d. If any of the items above is owned by a person or entity other than the applicant, describe the arrangement allowing access and attach written evidence of the arrangement. N/A
9. Attach an 8 1/2" x 11" map identifying the water source, point(s) of diversion, place(s) of use and conveyance system.

I hereby acknowledge that I assume all risk of the diversion and use of the water under this approval. I certify this is a temporary use and is not intended to become an established water right.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources ("Department") has examined this application for temporary approval to use water under the provisions of Idaho Code § 42-202A and has determined that:

 A. The application for temporary approval should be denied because _____

X B. The application for temporary approval should be approved, since

1. The temporary approval can be properly administered.
2. Other water sources are not readily available.
3. The approval is in the public interest.
4. The approval will not injure known public values associated with the water source or any known water rights.
5. If the temporary approval is within a water district, the Department has sought and considered the recommendations of the watermaster.

This application is therefore hereby:

 A. DENIED

X B. APPROVED, subject to the following conditions:

1. Diversion and use of water under this approval is subject to all valid existing water rights.
2. The applicant assumes all risk of the use of the water under this approval.
3. This approval authorizes a maximum diversion volume of 5.0 AF and a maximum diversion rate of 0.02 cfs.
4. This approval does not grant a right-of-way across the land of another.
5. The Department may cancel or reduce the rate of flow or volume authorized by this approval. For example, the Department may cancel or reduce this approval if it concludes the water use is injuring other water rights or adversely affecting fish, wildlife or other public values.
6. The applicant shall not divert water when downstream minimum flow water rights are not being satisfied.
7. This approval does not create a continuing right to use water.
8. A temporary approval for ground water recharge or prevention of flood damage shall be an opportunistic use of surplus water and shall not interfere with the filling of surface water reservoirs.
9. For a temporary approval authorizing ground water recharge or ground water or surface water remediation, the applicant shall measure and record the weekly quantity of water diverted and report the diversion data to the Department upon request.
10. This temporary approval is not an authorization for the described water use to be used as mitigation or credit for any other purpose.
11. Other: _____
12. This approval expires on September 15, 2020.

Signed this 19th day of June, 2020.

For the Department

Narrative for Application for Temporary Approval of Water Use

Bogus Basin Recreational Association (Bogus) is applying for a temporary water right to promote and establish root growth of plant species below the recently constructed snowmaking pond. Establishing plantings will help stabilize this area and reduce sediment load into Bogus Creek.

In order to accomplish this, Bogus will divert ground water from an existing well at the ski area, on Bogus' private property. The point of diversion for the well is located in Township 5N, Range 3E, Section 16, SWNE. The ground water will be conveyed through an existing system of pipes where it will be discharged into the snowmaking pond, located in Township 5N, Range 3E, Section 16, SWSW. The ground water will then be pumped from the pond by a portable pump for irrigation of a portion of the 3.67 acre place of use adjacent to the snowmaking pond as depicted in the detailed drawing attached to this narrative. A temporary, irrigation system will be installed to accomplish this purpose.

The highest priority stabilization areas within the proposed place of use total approximately 3.0 acres. Based on a conservative estimated maximum evapotranspiration rate of 5 inches per month at the site and a total of 100 irrigation days, the total volume pumped under this application is anticipated to be 4.2 acre-feet, and in no way will exceed 5.0 acre-feet

The below screenshot, taken from IDWR's Water Right Locator mapping tool, shows the point of diversion in SESE and the place of use in SWSW. The attached drawing shows how the water will be conveyed from the point of diversion to the place of use, with more detail for place of use.

RE: Application for Temporary Approval of Water Use: TP-63-338

Dear Applicant(s):

Your application for temporary water appropriation has been approved and is enclosed. The approval authorizes the temporary use of water and does not grant trespass or other activity on public land or on private property.

Please review the **conditions of approval on page 2 of the Application for Temporary Approval form** to understand the limitations associated with the temporary use of water.

This temporary approval **expires on** September 15, 2020. The expiration date cannot be extended under this temporary approval.

If you have any questions, please feel free to contact this office, and any of our agents will be able to assist you.

Sincerely,

A handwritten signature in black ink, appearing to read 'Chad Jones'.
