Re: Application to Appropriate Water No. 47-7387

Department of Water Resources Southern Region Office

Dear Applicant:

NOTICE OF PENDING ORDER REJECTING APPLICATION

On April 26, 1977, you filed with the Department of Water Resources an application to appropriate water number 47-7387, to irrigate land located within Section 21, T8S, R13E, B.M., Twin Falls County. You stated on the application that you were seeking ownership of the lands by means of a Desert Land Entry (DLE) Application.

We have recently been notified that your DLE Application was rejected by the Bureau of Land Management. You no longer have possessory interest in the land nor do you have a pending application which might establish possession or ownership in the future.

The purpose of this letter is to request that you withdraw your application or explain why the Department should not reject your application. Enclosed is a withdrawal form that should be signed and returned to me, unless you have some explanation that would prevent the Department from rejecting your application.

If you fail to respond to this inquiry within thirty (30) days of the date of this letter, the Department will act to reject your application. The application will be rejected on the grounds that it is speculative in that you do not have a possessory interest in the proposed place of use.

Sincerely,

Sr. Water Resource Agent

CERTIFICATE OF MAILING

I hereby certify that on the day of , 19**50**, I mailed the original copy of this letter, by U.S. Mail, postage prepaid, to the applicant noted above.

IN THE MATTER OF APPLICATION FOR PERMIT NO. 47-7387 IN THE NAME OF STANLEY LEHMAN &/OR JOE KINYON

ORDER VOIDING APPLICATION FOR PERMIT

This matter having come before the Idaho Department of Water Resources (Department) as a requirement of Section 42-203A and 42-203C, Idaho Code, the Department finds, concludes and orders as follows:

FINDINGS OF FACT

- 1. Application for Permit No. 47-7837 (application) proposed the diversion of 1.0 cfs from an unnamed spring tributary to the Snake River for the irrigation of 160 acres of land, and for fish propagation and livestock purposes. The irrigation component of the application was filed in connection with a Desert Land Entry (DLE) Application.
- 2. The Department received notice from the Bureau of Land Management (BLM) that the DLE Application was rejected.
- 3. The Department mailed notice to the applicant(s) on April 26, 1990, informing them that Application No. 47-7387 would be denied for lack of possessory interest in the land unless the applicant provided information within thirty (30) days why the application should not be denied.
- 4. On May 15, 1990, the applicants sent notice to the Department stating that they would not withdraw the application

since the application was still valid for the non-irrigation uses.

- 5. On May 21, 1990, the Department sent notice to the applicants acknowledging that the application was still valid for the non-irrigation uses, but that the applicants must amend the application by deleting the irrigation component. The notice requested specific information concerning the point of diversion and place of use for the non-irrigation uses, including information about access and/or rights-of-way with the BLM or other parties. The applicants were given thirty (30) days to submit the amendment and additional information.
- 6. On July 11, 1990, the Department mailed a second notice requesting the applications to provide the amendment and additional information within fifteen (15) days or withdraw the application. The notice further informed the applicant that failure to submit the information within the specified time was cause for the Department to void the application. A response to this notice was not received.

CONCLUSIONS OF LAW

- 1. Section 42-204, Idaho Code, specifies that failure on the part of the applicant to supply requested information within thirty (30) days is cause for the Director to void an application.
- 2. The application should be voided as provided in Section 42-204, Idaho Code.

ORDER

IT IS HEREBY ORDERED that Application for Permit No.

47-7387 be VOIDED as provided in Section 42-204, Idaho Code.

L. GLEN SAXTON, Chief Water Allocation Bureau
