**Subject:** Watermaster comments, 74-16233 Miller

WD170 has no objections to this approval. Wimpey Creek is separately administered from the Lemhi River, and there are usually adequate return flows low in the creek.

However, I did receive a call from a Wimpey Creek water user who also diverts at Wimpey Ck 1, who expressed concern about new pumping in the ditch. At the end of the conversation it appeared her concerns were resolved, and I encouraged her to protest if she felt this would injure her right. I don't know if it is necessary to obtain comments from other water users in the ditch.

WD Flag = 74
