STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

Ident. No. 95-17952

LA/NORTH

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant(s) Kevin &/or Suzanne Hockendorf Phone 805/760-1197
 Name connector (check one): ☐ and ☐ or ☒ and/or
 Mailing address 15972 N. Silver Springs Rd. City Hayden
 State ID ZIP 83835 Email kevin@constructintegrity.com

2. Name of representative, if any _____ Phone _____
 Mailing address _____ City _____
 State _____ ZIP _____ Email _____

- a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☐ Send original correspondence to the applicant and copies to the representative.
 b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.

3. Source of water supply Groundwater which is a tributary of _____

4. Location of point(s) of diversion:

| Twp | Rge | Sec | Govt Lot | 1/4 | 1/4 | 1/4 | County | Source | Local name or tag # |
|-----|-----|-----|----------|-----|-----|-----|----------|--------|---------------------|
| 52N | 03W | 33 | | | NE | NE | Kootenai | | D0076653 |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |

5. Water will be used for the following purposes:

Amount 0.06 for Domestic purposes from 01/01 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)
 Amount 0.03 for Irrigation purposes from 3/15 to 11/15 (both dates inclusive)
 (cfs or acre-feet per year)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)

6. Total quantity to be appropriated is (a) 0.09 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

7. Proposed diverting works:

- a. Describe type and size of devices used to divert water from the source. Drilled well D-0076653 to be connected to additional lot w/ homes to be built later
 b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate [Application for Construction or Enlargement of a New or Existing Dam](#). Application required? ☐ Yes ☐ No
 c. Proposed well diameter is 4 inches; proposed depth of well is 300 feet.
 d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
 e. If well is already drilled, when? 5/16/2018; drilling firm Horsley Drilling, Inc.; well was drilled for (well owner) GAD Enterprises - Idaho; Drilling Permit No. _____

For Department Use

Received by _____ Date _____ Time _____ Preliminary check by _____
 Fee \$ 10750 Received by Ja Receipt No. N03622 Date 6-2-2020
12500 Well Upgrade fee Ja N036141 6-5-2020

8. Description of proposed uses (if irrigation only, go to item 9):

- a. Hydropower; show total feet of head and proposed capacity in kW. _____
- b. Stockwatering; list number and kind of livestock. _____
- c. Municipal; must complete and attach the Municipal Water Right Application Checklist.
- d. Domestic; show number of households 2 - 0.5 acre each home irrigated
- e. Other; describe fully. _____

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

| TWP | RGE | SEC | NE | | | | NW | | | | SW | | | | SE | | | | TOTALS |
|-----|-----|-----|-----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|--------|

DECLARATION OF WATER SHARING AND ACCESS EASEMENTS

This Declaration of Water Sharing and Access Easements ("Declaration") is made and effective this 14th day of June, 2018, by GAD ENTERPRISES - IDAHO, LLC, an Idaho limited liability company ("Declarant"), with reference to the following facts:

A. The Declarant is the legal owner of three parcels of real property located along East Hayden Lake Road, near the City of Hayden, Kootenai County, Idaho, which are more particularly identified and described as follows:

Lot 1:

Lot 1, Block 1, according to the plat of Liberty Heights recorded December 20, 2006, in Book J of Plats, at Page 423 *et seq.*, as Instrument No. 2073345000, Records of Kootenai County, Idaho.

Lot 2:

Lot 2, Block 1, according to the plat of Liberty Heights recorded December 20, 2006, in Book J of Plats, at Page 423 *et seq.*, as Instrument No. 2073345000, Records of Kootenai County, Idaho.

Lot 3:

Lot 3, Block 1, according to the plat of Liberty Heights recorded December 20, 2006, in Book J of Plats, at Page 423 *et seq.*, as Instrument No. 2073345000, Records of Kootenai County, Idaho.

Such lots shall be referred to herein individually by the above designations, or collectively as the "Lots."

B. The Declarant desires to establish easement rights and a cost sharing arrangement for the use of a domestic water system located on Lot 1 and which is intended to jointly serve and benefit each of the Lots. The water system currently includes a 300 foot water well located on Lot 1 at 47°48.859' latitude and 116°42.060' longitude ("Well"). At some point, it is contemplated that the owner(s) of the Lots will improve upon the water system and add a pump, pressure tanks, meters, piping, and other equipment necessary or convenient to withdraw water from the ground and transport it to the individual Lots. For purposes of this Declaration, all elements of the system that are utilized by the Lots and necessary for the delivery of water to the Lots shall be referred to collectively as the "Water System". Those elements that are utilized by

less than all of the Lots and necessary for the delivery of water only to a one or two lots (e.g., the individual tanks, meters, and lines servicing just one Lot) shall be referred to as the "Private Equipment". The Water System and the Private Equipment shall be used, operated, maintained, repaired, and replaced according to the terms and conditions set forth in this Declaration.

C. Additionally, the Declarant desires to establish an access and utility easement (the "Access and Utility Easement"), for the benefit of Lot 2 and Lot 3, which shall be used, operated, maintained, repaired, and replaced according to the terms and conditions set forth in this Declaration.

NOW, THEREFORE, the Declarant hereby declares that each of the Lots shall be held, conveyed, mortgaged, encumbered, leased, rented, used, occupied, sold, and improved, subject to the easements and obligations established herein for the use and enjoyment of the Water System and the Private Equipment, and also for the use and enjoyment of the Access and Utility Easement by Lot 2 and Lot 3. The easements, obligations, and rights established herein shall constitute encumbrances and benefits running with the land and shall be perpetually binding upon and shall inure to the benefit of the Declarant, its successors in interest and assigns, and all parties having or acquiring any right, title or interest in or to any of the Lots.

The easement rights and obligations established under this Declaration shall be subject to the following terms and conditions:

1. Water delivered by the Water System shall be available to all Lots for domestic and yard irrigation purposes in reasonable amounts, but shall not be used on or transferred to any other property, individual or entity, for any purpose, and none of the owners of the Lots shall have any right to grant further water easements or rights to any other property not described herein.

2. The rights of each Lot in the Water System shall be equal, but neither the Declarant nor any of its successors with respect to any of the Lots shall be deemed to have made any warranty or representation to any other Lot owner, as to the amount or quality of water available from the Water System. The Water System or the Private Equipment shall include flow restriction devices to limit flow to each of the Lots to no more than seven gallons per minute.

3. The owners of Lot 2 and Lot 3 shall have a perpetual non-exclusive easement over only that portion of Lot 1 that is reasonably necessary for purposes of accessing and the use, operation, maintenance, repair and replacement of all elements of the Water System servicing each of the Lots.

4. The Owner of Lot 3 shall also have a perpetual, non-exclusive easement over the northerly 30 feet of Lot 2, for purposes of the use, operation, maintenance, repair and replacement of all elements of the Private Equipment servicing said Lot 3. The lines actually transporting water to Lot 3 shall be located underground, and shall extend due west from the Well location to Lot 3.

5. The Owners of Lot 2 and Lot 3 shall have a perpetual, non-exclusive easement over the northerly 30 feet of Lot 1, the eastern boundary of which shall begin at the current Well

location and extending westerly to the boundary of Lot 1 and Lot 2. The purpose of the easement is for the use, operation, maintenance, repair and replacement of all elements of the Private Equipment servicing said Lot 2 and Lot 3. In the event that a pump house is not constructed immediately contiguous to the Well, the easement shall include such additional land located within Lot 1 as reasonably necessary to construct lines to convey water from the pump house to Lot 2 and Lot 3.

6. All costs of maintaining, repairing, and replacing the elements of the Private Equipment shall be borne solely by the owner of the Lot(s) serviced by such Private Equipment.

7. Allocation of Costs and Expenses for Water System Equipment:

a. Costs of Water System Equipment: All costs of purchasing, installing, maintaining, repairing, and replacing the elements of the Water System shall be shared equally by the owners of the Lots.

b. Utility Costs: Costs of power to operate the Water System shall be borne in direct proportion to the usage of water by the individual Lots. The power bill shall be delivered to and paid, in the first instance, by the owner of Lot 1, who shall be responsible for reading the meters and allocating the cost to the three Lots based on the relative usage for the period covered by the bill. The bill and the allocation shall then be delivered to the owners of Lot 2 and Lot 3 within a reasonable time after the original receipt of the bill, and the owners of Lot 2 and 3 shall have until the due date on the bill, or 10 days from receipt of the allocation, whichever is later, to pay its share of the bill to the owner of Lot 1. Any such reimbursement payment not made within such time shall be subject to a late charge equal to 5% of the share allocated to delinquent owner(s), and if delinquent by more than 30 days, shall thereafter bear interest at the rate of 14% per annum until paid. Further, to the extent the owner of Lot 1 shall fail to timely pay the bill to the power provider, the owners Lot 2 or 3 shall have the right to pay the bill directly and seek reimbursement from the owners of the two lots. If such reimbursement is not received within 10 days of demand, then the delinquent owners shall be entitled to the same late charge and interest as described above.

c. Obligation Effective Upon First Use: With the exception of the Well located on Lot 1, there are no other improvements currently constructed upon any of the Lots. Currently, none of the Lots are connected to, or drawing water from, the Well. The Owner of each Lot shall have no obligation to contribute to the costs of water system equipment or share the utility costs in accordance with Paragraphs 7(a) and (b) until such time as the respective Lot connects to, and start drawing water from, the Well. At all times after commencing first use, the Owner of the respective Lot shall be obligated to share the Utility Costs in accordance with the terms of Paragraph 7(b).

It is contemplated that one or more owner of a Lot may make expenditures to purchase and install additional Water System Equipment before one or more Lot are improved and ready to draw water from the Well. This includes, but is not limited to, the installation of a pump and pump house which will be necessary to draw water from the Well. In the event less than all owners of the Lots contribute to expenditures in accordance with the terms of Paragraph 7(a), they shall be entitled to pro-rata

reimbursement for the costs thereof once each Lot subsequently connects to, and starts drawing water from, the Well. Upon being presented with an itemization of the costs, the owner of the Lot shall have 30 days to tender payment for their pro-rata share of the expenditures to the owner(s) of the Lot(s) that incurred the expenditures.

8. Each of the Lot owners shall have a lien against the other Lot owner(s) to secure the payment obligations described in the preceding paragraph. Such lien may be foreclosed as a mortgage or under the power of sale in deeds of trust (the foreclosing party having the right to appoint a trustee for such purpose). The lien shall secure any delinquent payment, all late charges and interest accrued with respect thereto, and all costs and fees, including attorney's fees, incurred in connection with efforts to collect through foreclosure or otherwise. No lien rights shall arise against any Lot unless and until it connects to, and start drawing water from, the Well.

9. Notwithstanding that the Declarant owns all of the Lots, it is recognized that the interests in each individual lot is separate and distinct and that Declarant intends that the provisions hereof shall be of full force and effect and the interests in the separate Lots shall not be deemed merged or extinguished.

10. The obligations, covenants, easements and restrictions contained in this Declaration may be amended, modified, or terminated, if at all, only by the written agreement of all owners of the Lots, which shall be acknowledged and recorded before it shall become binding and effective.

11. The interpretation and enforcement of this Declaration shall be according to the laws of the State of Idaho. The invalidity or unenforceability of any provision hereof shall not limit or affect the validity or enforceability of any other provision.

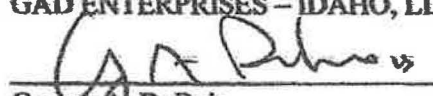

12. If legal action is required or deemed necessary to interpret or enforce any of the terms or provisions of this Declaration, the prevailing party shall be entitled to recover its cost of such action, including reasonable attorney's fees, incurred in connection with such action.

13. Each subsequent owner of any of the Lots described herein shall be deemed to have covenanted and agreed to the terms of this Declaration upon acceptance of a deed, regardless of form, therefore.

Executed and effective as of the date first written above.

RE: Application for Permit No. 95-17952

Dear Applicants:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the COEUR D ALENE PRESS on 6/18/2020 and 6/25/2020. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant

Hi Shaun,

Thanks so much for all your assistance with this paperwork - we really appreciate it!

I am out of town right now for work so I haven't talked to Suzy yet. However, I do remember us talking about this fee since we are filing for this well to be used for multiple dwellings rather than one.

If there is a way for us to pay online or over the phone we can certainly do that - otherwise Suzy can mail or drop off a check at your office.

Please still feel free to call Suzy to discuss if needed.

Thanks again!!

If you could do us the favor of using the "Reply All" feature when responding to this email we would greatly appreciate it!

Thanks so much and talk soon,
