Property was visited by Doug Jones of IDWR for SRBA review of claims for this farm. He found the pond in disrepair and showing no sign of recent use. I wrote to the new owner of the property last year in September. He called me to ask for time to visit the property and make sure that the pond had been abandoned. Local Farmer Jeff Sessions works the property. I have not heard from either party for at least a year. Recommend permit be cancelled for lack of development.

RE: Water Permit 43-7225

Dear Mr. Higley;

The above-referenced water permit covers a small storage pond on the NW portion of the farm that you bought from the late Harold Jones (Clear Creek Ranches). Proof of beneficial use has been filed on this permit, and a licensing examination would normally be done to confirm the extent of development. However, Douglas Jones of our Adjudication Section has visited this property in connection with SRBA review of the other rights there. He told me that the pond is in disrepair, and has not been recently used (probably due to a lack of consistent water supply). Based on this, I plan to recommend that this permit be cancelled for lack of beneficial use. If you have questions or comments, please contact me by November 5. If I do not hear from you by then, I plan to submit my recommendation for cancellation to our Boise office. I will be out of the office from September 7 through September 21.
