RE: Application for Permit in Critical Ground Water Area

Dear Applicant:

Our office has initiated a review of applications for permits to appropriate the public waters of the State of Idaho that have been held without action for many years. One type of application being held is those which propose development of ground water within an established critical ground water area. Our records indicate you have filed such an application. (Please find attached a computer printout describing your application)

Our office intends to dispose of all applications seeking ground water development in critical areas by denying the applications. Before initiating this action our office intends to provide you opportunity to withdraw your application and request a refund of the filing fees that have been paid.

Please review this matter and if you wish to withdraw your application please complete the enclosed form. If our office does not receive a withdrawal by September 1st, 2000 your application will be forwarded to the IDWR State Office with a recommendation it be denied. Any denial will be in the form of a preliminary order which you may request reconsideration or judicial review pursuant to procedural rules.

If you have questions, please feel free to contact this office.

Sincerely,

Allen Merritt, PE
Southern Region Manager
