RE: Permit No. 43-07215

Dear Permit Holder:

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that you must diligently pursue the completion of the proposed project.

Within one year of the time you actually intend to develop this spring and beneficially use the water, I suggest that you file a new application. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Please feel free to contact any of our regional offices if you wish assistance in completion of the new application.

Sincerely

L. GLEN SAXTON

Chief, Water Allocation Bureau

JUN 2 1987

Department of Water Resources Southern Region Office

RE: Permit No. 43-7215

Leland &/or Edith Gunnell Box 612 Malta, ID 83342

Dear Permit Holder(s):

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Before construction can commence on the dam associated with this right, plans and specifications prepared by a professional engineer must be submitted to the Department for review and approval.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN
Supervisor, Water Allocation Section
