Director of the Department of Water Resources, and provide a source of augmentation water to mitigate all losses.

Water diverted outside of the normal irrigation season can only be diverted at such times as there are sufficient flows in the Snake River to satisfy Idaho Power Co.'s water rights at its Twin Falls and Shoshone Falls hydropower plants and any other water rights diverting water from the Snake River.

This license shall be subject to review and possible amendment, modification or cancellation by the Director of the Department of Water Resources during or after June, 2019.

This project is known as the Low Line Drop Hydroelectric Project. Point of redirection is from Twin Falls Main Canal.

- | | | |
|----|-----|---|
| 4. | R23 | The water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this license. |
| 5. | R39 | A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works. |
| 6. | R04 | Use of water under this water right will be regulated by the watermaster of State Water District No. &DISTRICT. |
