IN THE MATTER OF PERMIT  
NO. 43-7151, IN THE NAME  
OF GLEN W. JONES'

CONTINUATION ORDER

This matter having come before the Idaho Department of Water Resources (IDWR) as a requirement of Section 42-203D, Idaho Code, the Department Finds, Concludes and Orders as follows:

FINDINGS OF FACT

1. Section 42-203D, Idaho Code, directs IDWR to review all permits issued prior to July 1, 1985, located within the Swan Falls Trust Water Area, to determine if water was beneficially used prior to said date.

2. If water was not beneficially used until after July 1, 1985, Section 42-203D further directs IDWR to review the permit under the provisions of Section 42-203C, Idaho Code.

3. Section 42-203C requires IDWR to determine whether diversion of water under a permit issued prior to July 1, 1985, causes a significant reduction of trust water available for power production and, if there is a significant reduction, to determine whether the reduction is in the public interest.

4. Permit No. 43-7151 (permit) was issued to Glen W. Jones (permit holder) authorizing the diversion of 2.63 cfs of groundwater for irrigation of 240 acres.

5. IDWR records show that 133 acres authorized to be irrigated under Permit No. 43-7151, are irrigated with other water rights perfected prior to July 1, 1985.

43-7151

6. Water diverted and used on or after July 1, 1985 for the irrigation of land under the terms of this permit is trust water.

7. The development and use of groundwater authorized under this permit does not cause a significant reduction of trust water..

#### CONCLUSIONS OF LAW

1. The water authorized for diversion under Permit No. 43-7151 is trust water.

2. The use of water under the permit satisfies the provisions of Sections 42-203C and 42-203D, Idaho Code.

3. An order continuing the permit shall be issued.

#### ORDER

IT IS HEREBY ORDERED that Permit No. 43-7151 is valid and may CONTINUE as provided in Section 42-203D, Idaho Code, subject to the following additional conditions and limitations:

1. Proof of construction of works and application of water to beneficial use shall be submitted to IDWR on or before July 1, 1990.

2. The use of trust water authorized by this right is subject to review 20 years after the date of this order to determine availability of trust water and to reevaluate the public interest.

3. Diversion and use of trust water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.

4. The Director retains jurisdiction of this right to change, add or remove any requirement as determined to be appropriate.

5. All conditions of approval contained on the permit are incorporated into and made a part of this order.

Dated this 28<sup>th</sup> day of July, 1989.
