RE: Permit No. 41-07079

Dear Permit Holder:

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that you must diligently pursue the completion of the proposed project.

The permit was initially issued under water right no. 43-07141. However, upon review of the file, it was determined that the point of diversion was located in Basin 41, not Basin 43. At that time, the Department issued a new number (41-07079).

Within one year of the time you actually intend to develop and beneficially use the water, I suggest that you file a new application. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Please feel free to contact any of our regional offices if you wish assistance in completion of the new application.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau
