DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 425

RECEIVED

MAY 11 2020

DEPARTMENT OF
WATER RESOURCES

This is to certify that:

HUGH SCOTT CAMPBELL
2658 S 1300 E
HAGERMAN, ID 83332

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
36-16920	8/22/1961	GROUND WATER	0.23	46.4	11.6	0.020	4.00
Combined Rental Totals			0.23	46.4	11.6	0.020	4.00

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2021. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2020, whichever occurs last.

Annual Rental Fee:

2020 - 2021: \$928.00 annually

The full fee for the rental of the above-described right(s) is \$928.00 per year for years 2020 - 2021. The rental fee includes an administrative fee of \$92.80 per year for years 2020 - 2021.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate/Acre (CFS/AC)	Volume/Acre (AF/AC)
IRRIGATION	0.18	46.4	11.6	0.015	4.00
Combined Total	0.18	46.4	11.6	0.015	4.00

** The authorized water usage reflects a reduction from the water right elements rented, to account for the per-acre diversion rate of water right 36-2707, which is being supplemented by this rental.*

Detailed water right conditions are attached.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 425

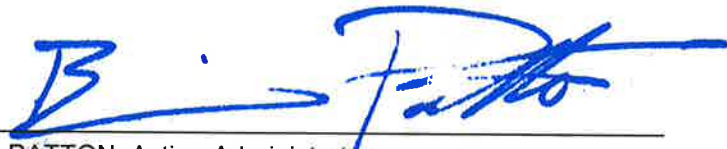

The undersigned renter agrees to use the water rented under this agreement in accordance with the Water Supply Bank rules and in compliance with the limitations and conditions of use described in this agreement:

 Hugh Scott Campbell 5-6-20
Signature of Renter Date

 Hugh Scott Campbell
Printed Name Title

*Title required if signing on behalf of a company or organization or with power of attorney

Having determined that this agreement satisfied the provisions of Idaho Code § 42-1763 and IDAPA 37.02.03.030 (Water Supply Bank Rule 30), for the rental and use of water under the terms and condition herein provided, and none other, I hereby execute this Rental Agreement on behalf of the Idaho Water Resource Board.

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
10. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 425

11. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 130.
12. Upon specific notification of the Department, the renter shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
13. Prior to the diversion and use of water under this rental agreement, the renter shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
14. Pursuant to Section 42-1412(6), Idaho Code, the water rights on this rental are subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
15. This rental does not authorize the construction of a well.
16. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. The Board may cancel this rental agreement if the Board determines it is not consistent with the ESPA GWMA plan. If this rental agreement is canceled, the cancellation shall not take effect until December 31 of the year in which the rental agreement is canceled.

**APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK**

RECEIVED
OCT 28 2019
DEPARTMENT OF
WATER RESOURCES

Applicant Name: Hugh Campbell

Is this application being submitted with a lease application as a lease/rental package?

Yes ☐ No ☒

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant HUGH CAMPBELL

Mailing Address 2658 SOUTH 1300 EAST HAGERMEN IDAHO 83566-3262
Street City State Zip Code

Email Address _____ Phone Number _____

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☐ No ☐
 If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative GARY FUNDERBURG Professional Title _____

Organization TSK ENTERPRISE LLS Relationship to Applicant _____

Mailing Address 255 BLUE LAKES BLVD NORTH, PMB 617 TWINFALLS, IDAHO 83301

Email Address tskenterpriseh2o@gmail.com Phone Number 208 320-0897

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Aplicant is seeking irrigation water for the purpose to cover the overage use to offset the mount needed for 2020

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
CFS	172 AF	CFS	134.6 AF	78.7 AC

* *Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.*

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
3/15/2020	4/1/2020	☐ 1	☒ 2	☐ 3	☐ 4	☐ 5	☒ Process application as soon as possible	☐ Return application to applicant

* *The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.*

** *Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.*

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

WELL,MOTOR,PUMP, PIVOT SYSTEM

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
T7SR14E,S.21,NENENE	GROUNDWATER	36-2707

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as **Attachment 3F**.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☒ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☒ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☒ Irrigation 78.7 (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
36-7510	IRRIGATION		94.0	23.5				
36-16920	IRRIGATION		168.8	16.2				
36-2412	IRRIGATION		81.2	20.3				
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL			
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☒ No ☐
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☒ No ☐
If yes, describe the date and location of the NOV.

- D. Additional Information

CONTRACTS -605-659-669 IS THE LIST OF WATER RIGHTS WE WOULD CONSIDER RENTING. ATTACHED IS THE SUMERY SHEET SUBMITTED BY JASON HELMS P.E.

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

lease water for Hugh Campbell Inbox ×

Gary Funderburg <tskenterpriseh2o@gmail.com>

to Jason

Jason, I found on the Waterr Bank three difference waters to rent:

We need 172 Acft and 86 Acers

	Acft.	Acres
#605	81.2	20.3
#659	64.8	16.2
#669	220.0	55.0

we need 26 Acft 49.5 Acre

This is what you figured He needed. Did I do this right?

Jason Helms

to me

Hi Gary,

After looking at these water rights, the first two are in the TIER1 category providing 2.4 acf
#605 expires this year.

0.32 - #605: 36-2412 1/22/1960 20.3 acres 81.2 acre-ft (TIER1 volume 48.7 acre-ft)

4.32 - #659: 36-16920 8/22/1961 16.2 acres 64.8 acre-ft (TIER1 volume 38.9 acre-ft)

0.32 - #669: 36-7510 11/7/1974 42.2 acres 168.8 acre-ft (TIER3 volume 84.4 acre-ft)

TOTAL Rental: 78.7 acres 314.8 acre-ft (ALLOWED VOLUME: 172.0 acre-ft)

However, in order to meet the 2 acre-ft per trimester maximum limit for ESPA impacts, the Attached ESPA modeling showing the following rental works:

#605: 36-2412 1/22/1960 20.3 acres 81.2 acre-ft (TIER1 volume 48.7 acre-ft)

#659: 36-16920 8/22/1961 16.2 acres 64.8 acre-ft (TIER1 volume 38.9 acre-ft)

#669: 36-7510 11/7/1974 23.5 acres 94.0 acre-ft (TIER3 volume 47.0 acre-ft)

Evapotranspiration Statistics

Name: User Drawn Polygon

ET Dataset: p3940_20160401to20161031_et.img

Area: 303.8 acres

Statistics	ET	CIR
MEAN (mm)	879	741
AC-FT	876.12	738.57
AC-FT/Acre	2.88	2.43

These statistics were generated by the tools provided at <http://maps.idwr.idaho.gov/ET> using the METRIC (Mapping EvapoTranspiration at high Resolution with Internalized Calibration) model, developed by the University of Idaho.

Evapotranspiration (ET) from irrigated agriculture is synonymous with consumptive use. The consumptive irrigation requirement (CIR) is a measure of the irrigation water, exclusive of within-season effective rainfall, necessary to meet the consumptive use requirement of a crop. A detailed explanation of these data can be found here:

**RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 36-16920, AGREEMENT 425**

Dear Renter:

Please find enclosed a receipt in the amount of **\$928.00** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 38.00 acre-feet of water for irrigation of 11.6 acres. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or \$835.20 of the rental fee will be paid to the lessor(s) and 10% or \$92.80 will be retained by the Department to offset administrative costs.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

for Water Supply Bank

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NOS. 36-16920, AGREEMENT 425**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. I **have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$928.00 was calculated based on the current rental rate of \$20.00 per acre-foot times a diversion volume of 38.0 acre-feet.

Please send a check for \$928.00 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

Pursuant to the Water Supply Bank Rules, 90% or \$835.20 of the rental fee will be paid to the lessor(s) and 10% or \$92.80 will be retained by the Department to offset administrative costs.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Water Supply Bank

Gary Funderburg – TSK Enterprise LLS

To: Water Supply Bank Rental Application 1468
From: Remington Buyer
Date: 3/27/2020
Re: Review & Analysis of Water Supply Bank Rental Application 1468

PURPOSE/NARRATIVE: On October 28th, 2019, the Department received from Hugh Campbell, through his representative Gary Funderburg of TSK Enterprises, an application to rent water rights 36-7510, 36-16920 and 36-2412 from the Water Supply Bank during 2020 and 2021 (application number 1468), for the irrigation of 78.7 acres of the applicant's property, located approximately 4 miles east of Hagerman. The lease contract for water right 36-2412 (Contract 605) concluded at the end of 2019 and a new lease of 36-2412 has not yet been proposed, so it cannot be rented by the applicant. The other two requested water rights are available for rental.

Ground water right 36-2707, belonging to the applicant, authorizes irrigation of 299 acres of the proposed rental place of use. A review of 2019 irrigation of the proposed rental place of use indicates approximately 297.4 acres were irrigated, of which approximately 11.6 acres were irrigated outside the authorized place of use for water right 36-2707. On January 28th, 2020, Mr. Funderburg was contacted, to inquire as to how Mr. Campbell proposed to irrigate 78.7 acres. IDWR informed Mr. Funderburg that a rental for 11.6 acres could be approved, but additional information would be required if a rental for more than 11.6 acres was desired. IDWR also inquired as to whether the 78.7 acres of irrigation requested by Mr. Campbell might be related to ground water diversion reduction obligations required of him, through his membership in the North Snake Ground Water District (NSGWD).

Through subsequent email correspondence with Mr. Funderburg during February and March of 2020, it was determined that IDWR would proceed with a rental for Mr. Campbell to authorize the irrigation 11.6 acres on his property during 2020 and 2021. Mr. Funderburg also provided IDWR with confirmation that Mr. Campbell was below his NSGWD ground water diversion reduction obligations, indicating that no rental was required for mitigation purposes. Since this rental will only be for the irrigation of 11.6 acres, a rental of water right 36-16920 alone will suffice and water right 36-7510 will not be included in the rental approval.

AUTHORITY TO FILE: The rental requests an authorization to irrigate lands owned by the applicant, using a ground water well located on the applicant's property. No concerns about authority to file.

WATER RIGHT VALIDITY: Water right 36-2707 appears to have been used in recent years and is valid. Water rights 36-16920 is valid, leased to the Bank, and available for rental. No concerns about water right validity.

INJURY TO OTHER WATER RIGHTS: Eastern Snake River Plain Aquifer (ESPA) ground water modeling indicates that this rental will not cause unreasonable depletions to reaches of the Snake River. No concerns about injury through this rental.

ENLARGEMENT OF USE: Water right 36-16920 authorizes a per-acre diversion rate of 0.02 cfs/ac, which is greater than the 0.015 cfs/ac authorized under 36-2707. To avoid enlargement in water right 36-2707, this rental will be restricted to an overall diversion rate of 0.178 cfs..

LOCAL PUBLIC INTEREST: Staff are not aware of any public interest concerns pertaining to this rental.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: Irrigation is a beneficial use.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: Subject to favorable water district and regional office review of this rental, staff recommend this rental be approved.

Buyer, Remington

Nathan,

Attached are my rental review memo, map and draft rental agreement for Hugh Campbell, a water user with property near Hagerman. Mr. Campbell has requested a rental for 2020 and 2021.

On behalf of WD 130 and IDWR Southern Region, please review the attached and advise if you have any questions, comments or concerns.

Thanks,

Remington

Gary,

See the attached model analysis for the 11.6 acres. I used a consumptive use volume of 3.0 acre-feet per acre for the analysis.

No mitigation is required.

Subject: Hugh Campbell Rental
To: Gary Funderburg <tskenterprish2o@gmail.com>

Gary,

Yes, for Hugh Campbell, it appears a rental of 11.6 acres from water right 36-16920 will suffice as the basis for the irrigation of an additional 11.6 acres of land at his property during 2020.

For your consideration, I have attached a preliminary ESPA model run which suggests the rental can be accommodated without any additional mitigation required to the ESPA. If you would like to attempt alternative modeling, please feel free to do so.

Else, if you would like to proceed with a rental of 36-16920 during 2020, for the irrigation of 11.6 acres at the Hugh Campbell property during 2020, please confirm the same within the next seven days.

Thank you,

Remington

GARY FUNDERBURG

On Mon, Feb 10, 2020 at 12:02 PM Buyer, Remington <Remington.Buyer@idwr.idaho.gov> wrote:

Gary,

Rental prices are calculated as a function of the total volume rented on a rental agreement. The present rental rate is \$20/acre foot.

Mr. Campbell's water right 36-2607 provides for a duty of water of 4.0 acre-feet annually per acre. Presuming Mr. Campbell will also irrigate at 4.0 afa/ac on the additional 11.6 acres, he need a rental of 46.4 af, which would correspond with a rental payment of \$928.00. However, if Mr. Campbell needed to rent additional volume to account for mitigation to the Eastern Snake River Plain Aquifer (ESPA), his rental payment could be higher.

Please note, I have one irrigation water right (36-16920) in the vicinity of Mr. Campbell's property that is presently leased to the Bank and available for rental. This right provides for a diversion of up to 64.8 af of ESPA ground water for the irrigation of up to 16.2 acres; presumably it should provide sufficient volume for Mr. Campbell's needs, including providing mitigation for potential impacts to the ESPA.

If you would like to rent this water right, please submit to our office within the next seven days the ESPA modeling necessary to validate the extent of the rental of water right 36-16920 that Mr. Campbell intends to rent.

If we do not receive a response back from you with the next seven days, prior to February 18th, 2020, we may return to you Mr. Campbell's rental application.

Please feel free to call me if you have any questions,

Regards

Gary,

As I have explained in my previous emails, we can move forward with a rental of water right 36-16920 for Mr. Campbell, to authorize the irrigation of 11.6 acres at his property in 2020. Based on your last response, the Department considers that this is how you would like us to proceed. We will now move forward in processing the application and no further action is required of you or Mr. Campbell.

However, if you would like to have Greg Sullivan of Brockway Engineering provide alternative ground water modeling, or if you would like to propose a rental for something other than 11.6 acres in 2020, please provide our office with such information within the next 30 days, to ensure the information is received prior to the completion of our review of Mr. Campbell's current rental application.

Regards,

Remington

YES We would like to move forward on the Hugh Campbell s application to lease water. I have contacted Greg Sullivan with Brockway engineers to run the model for him. do I need to refile his application? Otherwise i will forward it to Greg Sullivan.

I have completed the application for Irene Vandervegte to sign. I'll be sending the app. as soon as I get it back.

Thank You so much for your assistance. I know your busy.

Subject: RE: Irene Vandervegte

Gary,

Rental prices are calculated as a function of the total volume rented on a rental agreement. The present rental rate is \$20/acre foot.

Mr. Campbell's water right 36-2607 provides for a duty of water of 4.0 acre-feet annually per acre. Presuming Mr. Campbell will also irrigate at 4.0 afa/ac on the additional 11.6 acres, he need a rental of 46.4 af, which would correspond with a rental payment of \$928.00. However, if Mr. Campbell needed to rent additional volume to account for mitigation to the Eastern Snake River Plain Aquifer (ESPA), his rental payment could be higher.

Please note, I have one irrigation water right (36-16920) in the vicinity of Mr. Campbell's property that is presently leased to the Bank and available for rental. This right provides for a diversion of up to 64.8 af of ESPA ground water for the irrigation of up to 16.2 acres; presumably it should provide sufficient volume for Mr. Campbell's needs, including providing mitigation for potential impacts to the ESPA.

If you would like to rent this water right, please submit to our office within the next seven days the ESPA modeling necessary to validate the extent of the rental of water right 36-16920 that Mr. Campbell intends to rent.

If we do not receive a response back from you with the next seven days, prior to February 18th, 2020, we may return to you Mr. Campbell's rental application.

Please feel free to call me if you have any questions,

Regards
Remington

Subject: Hugh Campbell Rental

Gary,

I reviewed rental application 1468 for Hugh Campbell today. From what I can observe, Mr. Campbell diverted 552.8 acre feet of water and irrigated 297.4 acres of his property during 2019. Mr. Campbell's water right (36-2707) authorizes a ground water diversion volume of 1,196 af per year, for the irrigation of 299 acres. As such, his water use last year appears to be below his water right authorizations.

I did observe that 11.6 acres of the 297.4 acres irrigated appear to be outside the quarter-quarter limits of his water right, as follows:

Water Right 36-2707 – Irrigation Authorizations																		
Township & Range	Section	NE				NW				SW				SE				Totals
		NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
07S 14E	16									39.0	22.2	18.6	30.9	34.4	39.7	38.3	35.3	258.4
07S 14E	21	34.5	32.1															66.6
																		325.0
WR	Rate	Vol		Acres		Rate/AC		Vol/AC										
36-2707	4.58	1196		299		0.015		4.0										

		2019 Irrigation Observations																
Township & Range	Section	NE				NW				SW				SE				Totals
		NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
07S 14E	16									36.0	20.5	22.4	29.8	37.4	21.7	32.8	25.4	226.0
07S 14E	21	35.8	35.6															71.4
																		297.4

		Potential Irrigation Overage/Underage																
Township & Range	Section	NE				NW				SW				SE				Totals
		NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
07S 14E	16									3.0	1.7	-3.8	1.1	-3.0	18.0	5.5	9.9	32.4
07S 14E	21	-1.3	-3.5															-4.8
																		27.6

Based on the above, the Water Supply Bank could provide Mr. Campbell with a rental for up to 11.6 acres, to cover his irrigation overages in the NENE, NWNE, SWSW and NESE quarter quarters. However, per the application you have submitted on his behalf, the requested rental was for a diversion volume of 172 acre feet, for the irrigation of 78.7 acres.

How is it proposed that Mr. Campbell will make use of ground water for 172 acre feet on 78.7 acres through rental application 1468? Is it that Mr. Campbell has a ground water diversion reduction obligation to his local ground water district in the amount of 172 acre feet? Or 78.7 acres? If so, and Mr. Campbell is looking for a ground water mitigation by non-use rental, IDWR will need Mr. Campbell to present documentary confirmation that he has a ground water reduction mitigation obligation to the ground water district in such a defined amount.

Looking forward to your input on the above.

Thank you,

Remington

Subject: RE: Irene Vandervegte

Gary,

Mr. Campbell's application is attached. As mentioned previously, the rental request is for irrigation of 78.7 acres, however only 11.3 acres of Mr. Campbell's property appears to be under irrigation out of compliance with his water right's place of use.

Please advise on what new or supplemental beneficial use of water, and extent of water use, is intended to be authorized through this rental.

Thanks,

Remington

Gary,

We won't require new modeling right away. Once I've had a chance to evaluate Mr. Campbell's rental request, I'll know how much of it can be satisfied with the water rights already requested and modeled, and then we can discuss how much more, if any, Mr. Campbell might request to rent to finalize our review of his rental. Once we reach that juncture, we'll be able to know how much remains available for Irene. I'll follow up with you once I've completed my review of Mr. Campbell's rental request.

Thanks,

Remington

REMINGTON. Thank you for all your help. Do I need then to have a new model run when you find a water rights for Mr. Campbells ?

As far as I know we will be using a portion of the existing water rights for Irene Vandervegt. I know only part of the last year rental water will not be available. Please keep me informed and if you need me to do any thing.

On Wed, Dec 4, 2019 at 11:47 AM Buyer, Remington <Remington.Buyer@idwr.idaho.gov> wrote:

Hi Gary,

I won't be able to provide you with a list of available water rights until after rental application 1468 for Hugh Campbell is processed.

Please know, you provided ESPA ground water modeling for Mr. Campbell that includes a water right (36-2412) that is being released from the Bank at the end of 2019, and which will not be available for rental in 2020. As such, either Mr. Campbell's rental request will need to be reduced, to account for a rental of only water rights 36-16920 and 36-7510), else, Mr. Campbell's rental application can be amended to request additional water rights, to allow for the maximum extent of the water use desired by him.

However, until Mr. Campbell's rental application is processed, I can't provide a list of additional ESPA basin 36 water rights available for rental to Irene Vandervegt in 2020. I will attempt to resolve Mr. Campbell's rental request as soon as possible, so that we can turn attention to a potential rental by Irene.

Regards,
Remington

Gary,

Because the Vandervegt Gibson property proposes to divert ESPA ground water, the rental request must be accompanied by ESPA ground water modeling. I will review the ESPA ground water rental requests we already have pending for 2020 and then follow up with you shortly with a list of GW rights that might be rented to the Vandervegt Gibson property.

Hi Gary,

Through Rental Agreement 370, Irene Vandervegt Gibson is renting water rights 36-16178, 36-16158, 16-16161 and 36-7515 through 2019. Water rights 36-16158 and 36-16161 are being released from the Water Supply Bank this year and it is not clear if they will again be leased to the Bank during 2020.

IDWR can process a 2020 rental request for Irene, once we receive from her/you a new rental application. I would be happy to review the list of water rights available for rental during 2020, to assist you in preparing a 2020 rental application.

Can you please confirm, is the 2020 rental intended to authorize irrigation of the same 9.0 acres on the property that are not presently authorized to be irrigated under the Vandervegt Gibson water right portfolio?

Thanks,

Remington
