Subject: Bunts & Singles - Draft Approvals
Attachments: Amended Application 21-13254.pdf; Draft Transfer 81352.pdf; Draft Permit 21-13254.pdf

Dear Parties,

Please disregard the previous email. It included an incorrect email address for Liz Davy.

Roger Warner forwarded me a copy of the Amended Settlement Agreement. According to the agreement, Bunts & Singles needed to file an Amended Application for Permit 21-13254, revising some of the proposed start and end dates. The attached Amended Application 21-13254 was filed on April 3rd. According to the amended agreement, within 10 days after Bunts & Singles files the amended application, Hagenbarth will file a withdrawal of protest for Application 21-13254 and Application (for Transfer) 81352. Fremont Madison Irrigation District also needs to withdraw its protests before approval documents can be issued. The USFS is not a protestant in either case. I have included Liz Davy on this email, however, because the USFS rights would be revised through the transfer approval.

As we work to wrap up these contested cases, I thought it might be helpful to circulate draft approval documents for the parties to review. Please reply to this group email on or before April 17th if you have any concerns or notice any errors in the approval documents.
