This application proposes the diversion and use of water from a tributary of the Salmon River Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The stockwater use proposed in this application will benefit from the subordination provision because it is for stockwater purposes. The irrigation water use proposed in this application will benefit from the subordination provision because the diversion rate and acres will be applied to the subordination amounts specified in the decree for the Wild & Scenic River listed above.

The following application(s) are being re-advertised to correct the beneficial use:
