2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

WATER SUPPLY BANK LEASE CONTRACT No. 1059

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
13. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier 05/12/2009.
14. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 2.
15. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

Memorandum

To: Water Rights 2-7064, 2-7237A, 2-10181, and 2-10189

From: Justin Ferguson

Date: January 14, 2020

Re: Water Supply Bank Lease Application 1489, 1498, 1499, 1500

Purpose/Narrative: Four applications to lease 2-7064, 2-7237A, 2-10181, and 2-10189 were received by the Department on November 1, 2019. The applicant has requested to place the entirety of the rights into the Water Supply Bank through 2020, extending their current lease for another year. These applications are part of a lease/rental package similar to previous years with Owyhee Farming Co LLC requesting to rent the entirety of what can be made available.

Review of the previous lease found that it appeared there had been irrigation in 2011, 2013, & 2017 of the acreage covered by parts of these water rights. IDWR compliance was contacted and found that they had dry farmed the area and any water use would have been from rainfall.

There also appears to be a combined use limit attached to these rights however, it appears that this may be a historic data point that may need updated. Some of the rights within the limit have been split into child water rights and some of the child rights were disallowed. This lease will not recognize the data point and recommends it be updated to reflect actual limits, should any exist.

Authority to File: The applications were submitted by Crown Farm Outback, c/o Crown West Realty LLC, through their representative, Bryce Farris, and they were signed by Oliver Lawrence, who listed himself as an 'authorized representative' of Crown Farm Outback LLC. Mr. Lawrence has also previously represented himself as the asset manager for Crown Farm Outback, through his signing of prior Water Supply Bank lease contracts for the company. Crown Farm Outback directly acquired the water rights from the prior water right owners, who continue to own the land to which these water rights are appurtenances. No concerns about Mr. Lawrence, nor Crown Farm Outback's authority to file these lease applications.

Water Right Validity/Forfeiture Evaluation: Water rights 2-7064 and 2-7237A were licensed in 1985, as was 2-7060 (which is the parent water right from which 2-10181 originates); the three rights were leased to the Bank from 1999 through 2017, during which time they were decreed by the SRBA Court (2009). Water right 2-10189 was leased to the Bank from 1991 through 2017, during which time it too was decreed by the SRBA Court (2011). The four water rights were fully leased to the Bank again in 2018 and 2019. No concerns about water right validity.

Injury Evaluation: No injury is apparent through lease alone, Water district 2 and the Bybee Canal association will be contacted for comments regarding conveyance losses to avoid possible injury.

Enlargement of Use: No enlargement is evident through the lease alone, proper rental review should protect against enlargement.

Local Public Interest: Staff are unaware of any local public interests that are averse to the lease.

Beneficial Use/Conservation of Water Resources: The lease appears consistent with the conservation of water resources in Idaho.

Department/Watermaster Comments: Watermaster, IDWR Southern Region, and The Bybee Canal association's comments have been requested December 26, 2019.

Water Supply Bank Evaluation: Based on the information presented by the applicant, staff recommend the application be approved.

Chris,

Good morning, I was given your email address as part of the Bybee Canal Association. Attached are four maps depicting the place of use where irrigation is authorized under water rights 2-7064, 2-7237A, 2-10181, and 2-10189. These four rights, held by Crown Farm Outback LLC, have been in the Water Supply Bank from 1999 through December 31, 2019 and applications to lease them back to the Bank through 2020 were recently received by IDWR.

Our WSB rules (IDAPA 37.02.03.25.02e – WSB Rule 25.02.e) require that where the right to water includes diversion via a join diversion works owned or operated by a company, corporation (or in the case of the Bybee Canal, an association/organization), that written consent from the owner/operator of the diversion works should be included with the lease application.

Because the four above-listed water rights authorize diversion of Snake River water via the Bybee Canal, I am reaching out to you, to obtain written comments from a representative of the Bybee Canal, regarding this lease proposal. Previously it was mentioned that Jack Post and/or Darren Agenbroad may be the presently authorized representative of the Bybee Canal. If that is correct, could you please forward this email to Mr. Post or Mr. Agenbroad, so that we might obtain from them written confirmation that the Bybee Canal does not object and does consent to the lease of these four water rights into the Bank for 2020.

Please feel free to call if you have any questions,
Thank you,

Ferguson, Justin
