Subject: Boweta LLC - Application for Transfer

Mr. Speck,

The Idaho Department of Water Resources has received the Application for Transfer that has been submitted on behalf of Boweta LLC. After an initial review of the application I noticed an error with one of the points of diversion (POD); it appears that the POD as currently listed on the water right was decreed to the wrong legal description. The correct legal description that should be listed on the water right is in the NESE, Gov't Lot 3, Sec. 19, T08N, R21E. The application needs to be revised to update the correct legal description and the box at the top of the application for "Change diversion point(s)" needs to be checked. This revision will not result in any changes with the filing fee or the actual physical location of the POD.

Please feel free to contact me if you have any additional questions or concerns regarding this matter.

Thank you,

Jeff Nield
