Tammy,

Thank you for your reminder.

To be clear on what Hayden Lake Irrigation District is asking for and a small background is as follows; The District is the water/irrigation purveyor for the area and MR. Millers property is in the Districts 1910 Irrigated Tracts. Mr. Miller has not approached the district for a connection to our system and did not inform the District he was drilling a well in our service area. But in efforts to make this simple the district is asking for Mr. Miller to connect to the districts 10" main in Honeysuckle for irrigation only and he can use his well for his domestic use only. The district has the ability and willingness to serve the property irrigation and again the property is in our 1910 irrigated tracts. There are some fees and infrastructure required to connect and protect to the district's mains but not unreasonable.

Thank you,  
Branden Rose
