Subject: Ownership Change Notice - Water Rights 63-3482 and 63-31554

Dear Patrick,

Enclosed on behalf of the City of Nampa is a Notice of Change in Water Right Ownership for water rights 63-3482 and 63-31554. Included are the following documents.

1. Change of Ownership form signed by Nate Runyan, Deputy Public Works Director.
2. Water Rights Quitclaim Deed from Toll Southwest LLC (current landowner) to the City of Nampa.
3. Deed for Toll Southwest LLC.
4. A map showing Toll Southwest land ownership overlain by IDWR water right place of use shape files.
5. A check for \$125 in filing fees (\$25 for one undivided right and \$100 for one split right).

Toll Southwest (Toll) is developing the identified parcels on the enclosed map. Upon development, pressurized irrigation will be supplied to the lands from the City of Nampa pressure irrigation system. Toll desires to convey these water rights to the City for this purpose.

Ownership of water right 63-3482 is proposed to be split. Toll has quit claimed to the City 63 acres of the 69 acre-water right, consisting of 19 acres in the NWNW, 23 acres in the SWNW and 21 acres in the SENW of Section 31. The remaining 6 acres of the water right (4 acres NWNW and 2 acres SENW) are assumed to be appurtenant to lands not owned by Toll.

Ownership of water right 63-31554 is proposed to be changed in its entirety to the City. The water right authorizes irrigation of 28 acres in the NENW and 9 acres in the SENW of Section 31. All of the land in the NENW is owned by either Toll Southwest or the City. The IDWR shape file does not show the 9 acres of irrigation that are authorized by this right within the SENW, but we assume that the 9 acres are within the approximately 29 acres owned by Toll in this tract. Eight of the remaining 11 acres in the tract are irrigated with water right 63-31555.

Thank you for your consideration and assistance in this matter. Please call me if you have any questions.

Sincerely,

Terry M. Scanlan, P.E., P.G.

Re: Change in Ownership for Water Right No(s): 63-3482 (split into 63-3482 and 63-34870), 63-31554

Dear Water Right Holder(s):

The Department of Water Resources (Western) acknowledges the receipt of correspondence changing ownership of the above referenced water rights to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water rights, then no further action is required at this time.

The portion of water right no. **63-3482** retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right. Your portion of the water right is no. **63-34870**. Water right no. **63-31554** has been changed to your ownership in its entirety.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 605-4622.

Sincerely,

Lynne Evans
