Zach,

I am writing to inform you that your field exam for water right permit No. 37-8739, held by Alvin V. Shoemaker, is being returned because of an unfulfilled condition of the permit, which requires a measuring device at the inlet and the outlet of the reservoir. Attached is a letter which fully explains the reasoning as to why the exam is unacceptable and what steps need to be taken in order to fulfill the condition. A hard copy of this letter will be included in the exam being sent back to you. Additionally, I want to give you the heads up that I will be issuing a Notice of Intent to Void Permit to Mr. Shoemaker because of this unfulfilled condition. The attached letter outlines what steps can be taken in order to prevent voiding of the permit, and those same steps will be outlined in the notice sent to Mr. Shoemaker as well. Both the Notice of Intent to Void and the returned field exam will go out in tomorrow's mail. I want to give you this heads up so that you have time to contact your client prior to receiving the notice, if you so wish.

If you have any further questions, please feel free to contact me either by email or at 208-287-4915.

Thank you.
