Subject: Water Appropriation Permit No. 37-8739; Condon Waiver
Attachments: 37-8739 waive no. 8 11 15 2019.pdf; IDWR Notice of Intent to Void of Permit .pdf

Mr. Storms,

Attached is a condition waiver approval signed by Water District 37 Water Master Kevin Lakey that waives the need for measurement devices to be installed on the inlet and outlet of the irrigation storage facility associated with the permit. Brockway Engineering will be mailing you back the field exam previously submitted with the waiver included. This email is intended to demonstrate to the Department that we have met the timeline to avoid the voiding of permit 37-8739 as outlined in your attached October 22nd 2019 letter.

Please confirm receipt of this email. Thank you and please watch for our forthcoming beneficial use exam submittal.

Zach:

In response to your email dated November 7, 2019 concerning permit 37-8739, I waive condition #8 requiring a measuring device above and below the "upper pond" or "reservoir". If you need further clarification or information, don't hesitate to contact me.

Respectfully,

Kevin Lakey
Water District 37

RE: Water Right Permit 37-8739; Condition Waiver Request.

Dear Mr. Spackman,

On behalf of Alvin V Shoemaker DBA Shoemaker Properties, I am formally requesting waiver of Condition #8 associated with water right permit 37-8739. Condition #8 on permit 37-8739 reads: *"Permanent measurement devices must be installed in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured."* According to a letter written to Zach Latham of Brockway Engineering (attached) by Mr. Kevin Lakey, Water District 37 Watermaster, and email correspondence connected therewith (also attached), administration of 37-8739 does not require nor necessitate measurement at locations outlined in Condition #8.

As an agent authorized to act on behalf of Mr. Shoemaker, I am formally requesting Condition #8 be waived from and not included on the license for water right 37-8739. Thanks for your time and assistance on this matter.

Sincerely,

Robert "Bob" Marcroft

RE: Water Right Permit 37-8739; Amended Beneficial Use Field Report.

Dear Scott,

On behalf of Alvin V Shoemaker DBA Shoemaker Properties, enclosed is the amended beneficial use field report for water right permit 37-8739 which includes a condition waiver approval signed by Water District 37 Water Master Kevin Lakey that waives the need for measurement devices to be installed on the inlet and outlet of the irrigation storage facility associated with the permit (permit condition #8). You returned the exam in early October indicating that it was incomplete without the accompanying waiver. Re-submittal of the exam with the waiver included is intended to demonstrate to the Department that we have met the timeline to avoid the voiding of permit 37-8739 as outlined in your attached October 22nd 2019 letter and substantiates the recommendation to remove condition #8 from the license.

Please copy our office on all correspondence regarding this water right permit's beneficial use field report. Don't hesitate to call our office should you have any further questions or comments. Thanks for your time and assistance on this matter.

Regards,

Zach Latham, M.S., Hydrologist
