concerning Permit # 74-16213
and statement of completion

I contacted Cindy Gender who I
have worked with in Salmon.

This permit is only for stock water
during the winter.

Stock permits do not require a
fish screen.

I am enclosing the email Cindy
sent to the Fish & Game to document
that no fish screen required.

I do have a lockable headgate on
the diversion based on summer
irrigation. I was required by
the state and I put one in

Thank you

Subject: screen requirement, Sandy Creek

Mike – DeAnn Crofoot developed a year-round stockwater permit 75-16231 using the same Sandy Creek diversion as 2 of her irrigation rights (74-199, 74-762). The diversion is presently not screened. Are fish screens required for Sandy Creek? Can the screen requirement be deferred for this permit?
