1009 S. Star Rd.
Star, Idaho 83669

Dear Mr. Otter:

You are receiving this Watermaster Tax Receipt as a part of your transfer from the Pioneer Ditch Company. Each year Water District #63 bills all water users who divert from the Boise River.

As a condition of the transfer from Pioneer Ditch Company you are required to install a flow meter that can be monitored by the Boise River Watermaster for accurate accounting of your total usage. As you know your water right is a portion of the Stewart Decree rights on the Boise River and as such are subject to reduction in flows as stated in the Stewart Decree.

In order to keep accurate records and provide proper allocation of the water right please contact me as soon as possible to arrange for a meeting to inspect the location of the flow meter.

Please contact me with any question.

Sincerely

Rex R. Barrie
Boise River Watermaster
