Re: Application for Permit

Dear Applicant:

You recently filed a water right application with the Idaho Department of Water Resources (IDWR) proposing to divert waste water for irrigation. IDWR must determine if the water you wish to appropriate is waste water available for appropriation or whether it is "live" water under control of an irrigation delivery organization to satisfy downstream users. The irrigation organization(s) in your area appears to be Brundage Water Users Assn Inc and Goose Lake Reservoir Co .

The waste water status in your area can be determined by providing written consent from the correct irrigation delivery organization confirming if the water does nor does not remain under its control for other users. Also, please provide written confirmation of a right-of-way to use the waste ditch or waste drain if that conveyance is owned by the organization or by some other person or entity.

Please provide the requested information within sixty (60) days. You may request up to six months additional time if necessary. You may withdraw the application by returning the enclosed withdrawal form if you prefer. The application will be voided without a timely written response. Refunds are not issued for voided applications.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to these matters.

Sincerely,

Kate Huelse
