RE: **WATER SUPPLY BANK LEASE CONTRACT 1176, 1178
FOR WATER RIGHTS 37-22248, 37-23017**

Dear Lessor:

Water rights **37-22248, 37-23017** were leased into the Water Supply Bank (Bank) as of January 1, 2020, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2020**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

Please note, the diversion rates on page 4 of the contract were updated to match the actual diversion rates of the water right.

Narrative: The Department received this application on March 16, 2020. The applicant wishes to place the entire right in the Bank. The application was signed by Preston Ziegler, manager. The parital decree states "to mitigate for depletion of water resulting from the diversion and use of water under this right and to prevent injury to other water right holders, the right holder shall cease diverting and using 0.03 cfs of the right, which shall remain undiverted in the Big Wood River." 0.03 cfs should be in the canal but not used. Water rights used for mitigation are protected from forfeiture by statute however, the mitigation portion will placed in the Bank but will not be rentable. This way the Department will make sure the mitigation by non use is taking place. This right was decreed in 2010. Sporadic irrigation has taken place. The right was placed in the Bank in 2017. This right is currently within WD 37.
