I think it was used for a mint still on the southwest corner of the property, but I don't have any further documentation.

Thank you for working on the irrigation split and please let me know when it is complete.

Thank you

The Department of Water Resources is in the process of reviewing an ownership change that was received in November, 2019. After looking at aerial photography and the water right backfile, it doesn't appear that the commercial use of this water right is appurtenant to land now owned by Kimberland LLC. If you have any documentation that states otherwise, I will split the irrigation use only. Please let me know as soon as possible. Thank you.
