

MEMORANDUM

Date: March 12, 2020
To: Transfer 83093
From: Brian Normandeau
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to change the place of use and one of the two points of diversion for water right 35-7720. The place of use change is only intended to make corrections to the legal description and shape currently associated with the water right; no physical changes are being made on the ground.

Authority to File:

The application was signed by Carl Zitlau, who is registered with the Secretary of the State as the agent for PT Elliot LLC. PT Elliot LLC is the current water right owner per IDWR records, and the land owner per Jefferson County parcel data.

Water Right Validity:

The water right involved was decreed in 2004. Aerial imagery does not indicate any five year period of nonuse since that time. No issues identified.

Injury to Other Water Rights:

The application was not protested, and the watermaster comment indicated no opposition to the transfer. No issues of injury identified.

Enlargement of Use:

Approval of this transfer does not result in an increase to diversion rate, total volume or total irrigated acres. No issues of enlargement identified.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
