Re: Change in Ownership for Water Right No(s): 37-11236 and 37-11237

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Please note that water rights 37-11236 and 37-11237 list their places of use and points of diversion as being located within the NWSE of Section 23, T05N, R17E, while the actual physical location of the parcel described in the ownership change documentation is in the SWNE of Section 23 (see enclosed map). This error can be corrected by filing an Application for Transfer of Water Right which will correct the water right record, and, since it is a change in the legal description and no unauthorized physical change in location has taken place, the filing fee is only \$50.00 per right (Idaho Code § 42-221, (O) 8.). You can contact our office for more information.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9909.

Sincerely,

Jim Bitzenburg
