Re: Delivery List for Squaw Creek

Dear Eric:

Enclosed are two lists to assist you in delivering natural flow water rights from Squaw Creek. The lists include the following:

- ***Delivery List, Priority Order*** – These are the rights evidenced by decree, license or permit that can be delivered from Squaw Creek.
- ***Adjudication List*** – This list identifies the current owners of record for most of the rights in the first list. The adjudication list reflects the rights recommended to the SRBA Court. The list can help identify current owners of deliverable rights from the first list.

Not all the rights from the first list have been recommended in the second list. A few rights developed after November 1987 are shown on the delivery list but not on the adjudication list. The latter only includes rights developed and in use by late 1987 – anything newer than that is outside of the SRBA scope.

Note that the adjudication list groups the right in priority order for the 1900's and then the 1800s. The 1800s rights should precede the 1900s rights, of course. But a programming problem prevented me from successfully moving the 1800s priority rights ahead of the 1900s rights. Based on the priority date, you can match a right from the delivery list with the same right on the adjudication list to identify the current owner.

I have asked the department computer staff to prepare better lists to make your work easier. The improved lists will be sent to you as soon as possible. Meanwhile the enclosed printouts should work. I did not include any rights from water tributary to Squaw Creek but can do so if you need that information ... just let me know.
