4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to Section 42-108, Idaho Code and IDAPA WSB Rule 37.02.03.25.02e.

- B. Please provide a description of the current water diversion and delivery system.

Water is diverted from the Snake River by two pumps located at the C. J. Strike Hydroelectric Project. Water is delivered into a pressurized irrigation system.

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. Water right 2-39 shares a PPU with 2-40

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☐ No ☒

Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒

If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. Water right 2-40 is authorized for 5 acres of irrigation. During the last five years 3.8 acres of this right has been exercised and the remaining 1.2 acres has been in the Water Supply Bank.

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒

If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See Section 42-223, Idaho Code for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed. 1.2 acres of 2-40 has been in the water supply bank for the period 2015 - 2019. Description of Water Right and Lands That are Not Being Irrigated

In 2012 Idaho Power filed transfer number 77714 to create a common permissible place of use (PPU) and common points of diversion (PODs) for water right 2-39 and 2-40. These rights are used to irrigated Scout Park and North Park near Idaho Power's C. J. Strike Dam. The transfer was done because irrigated areas in both parks were recently changed and the establishment of a PPU allows for irrigation realignment if needed in the future. Water right 2-39 allows for the irrigation of 7.0 acres and water right 2-40 allows for the irrigation of 5.0 acres. The 12 acres of allowed irrigation can occur within a 20.3 acre PPU (Attachment 2).

Three maps are attached to this application. One map shows the permissible place of use and associated PODs for water rights 2-40 and 2-39. Maps for both Scout Park and North Park are also attached showing the acreage within the PPU that is not irrigated. The total PPU for water rights 2-40 and 2-39 is 20.3 acres. Currently, Idaho Power is irrigating 10.77 acres of the 20.3 PPU. In Scout Park, 3.45 acres remained unirrigated and in North Park 6.08 acres remain unirrigated. All areas not currently irrigated in the attached maps will remain unirrigated for the period of time water right 2-40 remains in the water bank. There is currently 1.2 acres of authorized irrigation under water right 2-40 that is not utilized within the PPU as designated by Transfer 77714. Idaho Power would like to place this 1.2 acres into the Idaho Water Resource Board water supply bank.

Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

Sincerely,

Amanda Vaher
