Re: CITY OF MOUNTAIN HOME WATER RIGHTS – TRANSFER NO. 78173: REQUEST FOR REMOVAL OF CONDITION OF APPROVAL

Dear Mr. Kelly:

The purpose of this document is to officially request the Idaho Department of Water Resources (Department) to the remove the condition of approval in Transfer No. 78273, for applicable water rights, which states:

"Starting January 15, 2016, and continuing every January 15 until notified by the department, the right holder shall submit a report annually to the department demonstrating that the water diverted under rights 61-2167, 61-2188, 61-2210, 61-7151, 61-7172F, and 61-7439 is necessary to satisfy demands for municipal type irrigation use during the authorized period of use. The annual report shall include the maximum weekly volume diverted for all purposes during both the irrigation season and the non-irrigation season. The annual report shall also include the total volume diverted for all purposes during both the irrigation season and non-irrigation season. After specific notification by the department, the right holder shall provide to the department any data used to compile the report."

The City has complied with this condition of approval for several years now demonstrating that transfer rights 61-2167, 61-2188, 61-2210, 61-7151, 61-7172F, and 61-7439 are necessary to satisfy increased demands during the irrigation season for municipal type irrigation. The City does not have plans, or anticipate plans, that would substantively change the overall use of water during the irrigation season. Additionally, as the City continues to grow, the irrigation demand is only anticipated to increase. Also, there is a financial burden associated with preparing a report every year to comply with this condition of approval that the City bears. For these reasons, the City officially requests that this condition of approval be removed. We look forward to the Department's response to this request.

Sincerely,

Rich Urquid

Re: CITY OF MOUNTAIN HOME WATER RIGHTS – 2019 ANNUAL REPORT

Dear Mr. Kelly:

The purpose of this document is to summarize the total amount of water diverted by the City of Mountain Home's groundwater wells during 2019 pursuant to the Condition of Approval of Transfer No. 78273 dated September 22, 2014 that states:

"Starting January 15, 2016, and continuing every January 15 until notified by the department, the right holder shall submit a report annually to the department demonstrating that the water diverted under rights 61-2167, 61-2188, 61-2210, 61-7151, 61-7172F, and 61-7439 is necessary to satisfy demands for municipal type irrigation use during the authorized period of use. The annual report shall include the maximum weekly volume diverted for all purposes during both the irrigation season and the non-irrigation season. The annual report shall also include the total volume diverted for all purposes during both the irrigation season and non-irrigation season. After specific notification by the department, the right holder shall provide to the department any data used to compile the report."

The City has requested that Keller Associates, Inc. submit this annual report on its behalf.

The City of Mountain Home currently operates nine (9) potable water wells and one (1) irrigation well. The potable wells are used to supply water to the potable water distribution system, which residents use for potable water and irrigation. The City uses the irrigation well as a supplemental source of water for its reuse farmland which is primarily irrigated with treated wastewater effluent from the wastewater treatment plant.

Keller Associates performed an analysis of available production data from all wells. The parameters evaluated are summarized in Table 1, and include:

- Irrigation season maximum weekly volume (April 1 October 31)
- Non-irrigation season maximum weekly volume (January 1 March 31 & November 1 December 31)
- Total volume diverted during irrigation season (April 1 October 31)
- Total volume diverted during non-irrigation season (January 1 March 31 & November 1 31)

Information used to complete this analysis was provided by the City of Mountain Home and is believed to be accurate; it is attached to this document.
