DEPARTMENT OF
WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code, in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE of \$50.00** to be included with this form when filed with IDWR.

Permit no. 63-33141 Date proof is due March 1, 2020
 Name(s) of permit holder(s) Mellin Properties Ltd. Partnership
 Mailing address 10100 W. Franklin Rd. City Boise State ID Zip 83709-0333
 Telephone no. 208-250-2963 Email rmellinla@msn.com

Describe what work has been completed toward the development of this water right:

If no work has been completed, show "none". An eight^{inch} well has just been completed to 370 feet, except for the top 64 feet, through rock to the beginning of gravel with 90 feet of water from a static level of 280 feet. This well is to be a guide well for a subsequent 20 inch well followed by a test pump to confirm/determine that such depth is adequate to provide 1200 gpm for 135 Acres, with the adjacent property without drilling into the gravel and (see back side) Costing \$32,100 Plus \$10,000 for buried pipe & electric line from well to built pivot pad. The permit holder(s) has been unable to complete the remainder of the work for the following reasons: I am told the BLM right-of-way approval process will take ^{up to two} at least one years, So I shall not be able to farm during the 2020^{and perhaps 2021} season even if I shall complete the well, install the pivot, and with a temporary pump and motor apply water to the land. (Also see back side.)

Permit holder(s) request an extension for five year(s). maximum or two & one-third years.

Ralph Mellin
 Signature (If other than permit holder, Power of Attorney must be supplied)

December 11, 2019

Date

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Department has reviewed the explanation for delay and concludes the reason(s) for delay meets the requirements for approval of the Request for Extension of Time as provided by Section(s) 42-204 and/or 42-218, Idaho Code.

☐ IT IS HEREBY ORDERED that the permit is REINSTATED with the priority date advanced to _____, 20____.

☒ IT IS HEREBY ORDERED that the above request for extension of time is APPROVED, and the time within which to submit proof of beneficial use is extended to April 8, 2020.

Signed this 16th day of March, 2020

Shelley W. Keen
 Shelley W. Keen, Chief
 Water Allocation Bureau

having to provide a 16-inch casing to and through the gravel. This well is located on the adjacent property served by permit number 63-34046. The extension for this 63-33141 permit was granted in order to purchase the adjacent property to make an economic unit, which has been done.

Also in October 2019, I applied to Idaho Power Company to extend their power line one-half mile to the well site, which all is across BLM land. Idaho Power Company in-turn has applied to the BLM for the right-of-way to extend their power line. See attached Idaho Power email.

Nine months of power line construction time is added from October 2021.

I realize the regulations only allow one extension for a property under 100 acres. However, even though under two water permits, my project is 160 acres and an economic unit now because of the action completed under which the previous extension was granted. I, therefore, request that this project be viewed as a single 160 acre project governed by two water permits and that this extension request be granted.

That Extension of Time was granted in order to purchase the adjacent 80 acres to make an economic unit of 160 acres in order to make full use of a standard irrigation pivot.

Please coordinate this Request for Extension of Time with the Request for Extension of Time for Permit No. 63-34046.

CERTIFICATE OF SERVICE

I hereby certify that on **March 17, 2020** I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER (**PRELIMINARY ORDER GRANTING REQUEST FOR EXTENSION OF TIME**) to the person listed below:

RE: Preliminary Order in the Matter of Permit No. **63-33141**

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

REQUEST FOR EXTENSION OF TIME LETTER

RE: Permit No. 63-33141

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the proof due date to **April 8, 2020**.

The Department has granted this extension because on the actual development time of this permit was delayed by a government agency, according to Idaho Code § 42-204(1). The documented delay caused by the Bureau of Land Management occurred from March 1, 2020 to April 8, 2020 extending the proof due date an equal number of days. The BLM received the application for right-of-way on January 21, 2020, which is 39 days from the proof due date of March 1, 2020. The request for extension approval grants 39 additional days to the proof due date, which is now April 8, 2020.

You may be eligible for further extensions based on the same reason noted above if the issue is ongoing. Please submit supporting documentation providing dates for the period of delay with any future requests for an extension for this same reason. It is important that you work diligently toward the completion of the project during the new development period allowed by this extension as soon as the issue is resolved.

The extension is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01). It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning this permit, please contact the State Office of the Department located in Boise at (208) 287-4800.

Sincerely,

Debbi Judd

Enclosures

Memorandum

To: Water Right File 63-33141

From: Debbi Judd

Date: March 13, 2020

Re: Time Calculation for Request for Extension of Time

The Permit Holder submitted documentation of government delay for a Request for Extension of Time on December 19, 2019. The Permit Holder, through Idaho Power, submitted an application to BLM requesting a right-of-way to install a power line to the Permit Holder's point of diversion. The application was received by BLM on January 21, 2020, the proof due date is March 1, 2020. Pursuant to Idaho Code § 42-204(1), the Department can only approve an extension for government delay for time lost up to the proof due date, which is 39 days. The new proof due date is April 8, 2020.

Dear Mr. Mellin,

Idaho Power Company has submitted an application requesting a right-of-way to utilize public lands for a new overhead 34.5 kV distribution line to service your irrigation and well. The application was dated on December 30, 2019; however, **the BLM received this application at close of business on January 21, 2020.**

Attached is a copy of the application and corresponding map for your and IDWR's reference (IDWR copied on this email). As an interested party, we can keep you apprised on the status of this application as it is processed, although our primary communications will be with Idaho Power Company as the applicant. Typically customer-driven projects such as this one have the highest priority to Idaho Power to be processed; however, the BLM has many ongoing projects and it is likely that the project will have to await for staff availability to be processed, as well as complying with regulatory requirements during processing which can take some time. I can update both you and Idaho Power with a better timeframe once I have had time to review the application more thoroughly.

Please let me know if I can be of any further assistance, or if you have questions.

Subject: [EXTERNAL] Re: Application For Line Extension to Serve Mellin Properties WO 27543362 T. 1N R 1E, Sections 13 and 24

Good morning Meghan, if I may only use your first name.

The reason for my response to you is that I need an extension on the development of my well permit from the Idaho Department of Water Resources. They said about the only reason now is because of extra time needed because of a delay in government action - e. g. needed permits.

That extension start time evidently is based on the date the government received my (Idaho Power's) request.

So it would be helpful if I can confirm that the BLM now actually received the below noted IPC request. And the receipt date such as yesterday before closure or today.

Then I can copy that email reply to Water Resources.

So I thank you in advance for your confirmation with date on the receipt of the below noted transmittal.

Sincerely,

Ralph Mellin, General Partner
Mellin Properties Limited Partnership

Hi Courtney and Meghan,

Thank you for letting me know that the application for Ralph Mellin – Mellin Properties was not received by the BLM.

Attached is a copy of the signed SF299 from December 30, 2019 and drawing for our request to extend an existing overhead power line south along the proposed extension of Cole Road to serve irrigation facilities on Mr. Mellin's property located on Section 24.

Please let me know if you have any questions or if additional information, including environmental studies are needed.

Thank you.

Applicant

Authorized Agent

208-250-2963

4. As applicant are you? (check one)

- a. ☐ Individual
b. ☒ Corporation*
c. ☐ Partnership/Association*
d. ☐ State Government/State Agency
e. ☐ Local Government
f. ☐ Federal Agency

* If checked, complete supplemental page

5. Specify what application is for: (check one)

- a. ☒ New authorization
b. ☐ Renewing existing authorization number
c. ☐ Amend existing authorization number
d. ☐ Assign existing authorization number
e. ☐ Existing use for which no authorization has been received *
f. ☐ Other*

* If checked, provide details under item 7

6. If an individual, or partnership, are you a citizen(s) of the United States? ☐ Yes ☐ No

7. Project description (describe in detail): (a) Type of system or facility, (e.g., canal, pipeline, road); (b) related structures and facilities; (c) physical specifications (Length, width, grading, etc.); (d) term of years needed; (e) time of year of use or operation; (f) Volume or amount of product to be transported; (g) duration and timing of construction; and (h) temporary work areas needed for construction (Attach additional sheets, if additional space is needed.)

Idaho Power Company (IPC) is requesting authorization for a new overhead 34.5kV distribution line to serve an irrigation pivot and well belonging to Ralph Mellin located:

T. 1N., R. 2E., Ada County, Idaho B.M.

Sec. 19, SW1/4NW1/4, NW1/4SW1/4

Length 2,687.41 Feet, Width 40 Feet, Area 2.47 Acres Will extend on the west side of the proposed future location of Cole Road.

See enclosed map.

IPC will conduct maintenance activities and implement best management practices in accordance with Master Agreement BLM-MA-ID-001.

8. Attach a map covering area and show location of project proposal

9. State or Local government approval: ☐ Attached ☐ Applied for ☒ Not Required

10. Nonreturnable application fee: ☐ Attached ☒ Not required

11. Does project cross international boundary or affect international waterways? ☐ Yes ☒ No (if "yes," indicate on map)

12. Give statement of your technical and financial capability to construct, operate, maintain, and terminate system for which authorization is being requested.

IPC has the technical and financial capability to construct, operate, maintain, and terminate the requested facility in accordance with Federal and State regulations governing private utilities. IPC has successfully constructed, operated, and maintained electrical facilities in Idaho, Oregon, and Wyoming for over 100 years.

13a. Describe other reasonable alternative routes and modes considered.

This is the best route to serve the customer and will parallel on the east side, the proposed extension of Cole Road. No other routes were considered.

b. Why were these alternatives not selected?

N/A

c. Give explanation as to why it is necessary to cross Federal Lands.

This is the best route and does cross Federal Lands and will be adjacent to the extension of Cole Road.

14. List authorizations and pending applications filed for similar projects which may provide information to the authorizing agency. (Specify number, date, code, or name)

N/A

15. Provide statement of need for project, including the economic feasibility and items such as: (a) cost of proposal (construction, operation, and maintenance); (b) estimated cost of next best alternative; and (c) expected public benefits.

The construction of this power line will serve an existing landowner and will allow IPC to operate and maintain the proposed power line in a safe and reliable manner.

16. Describe probable effects on the population in the area, including the social and economic aspects, and the rural lifestyles.

No impact to rural lifestyle. Mr. Mellin has requested this power line extension for irrigation purposes.

17. Describe likely environmental effects that the proposed project will have on: (a) air quality; (b) visual impact; (c) surface and ground water quality and quantity; (d) the control or structural change on any stream or other body of water; (e) existing noise levels; and (f) the surface of the land, including vegetation, permafrost, soil, and soil stability.

The environmental effects of this electrical facility have been considered and no issues are anticipated as it is an extension from an existing overhead line and will run through land currently being farmed.

18. Describe the probable effects that the proposed project will have on (a) populations of fish, plantlife, wildlife, and marine life, including threatened and endangered species; and (b) marine mammals, including hunting, capturing, collecting, or killing these animals.

Studies to be provided upon BLM's request.

19. State whether any hazardous material, as defined in this paragraph, will be used, produced, transported or stored on or within the right-of-way or any of the right-of-way facilities, or used in the construction, operation, maintenance or termination of the right-of-way or any of its facilities. "Hazardous material" means any substance, pollutant or contaminant that is listed as hazardous under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, 42 U.S.C. 9601 et seq., and its regulations. The definition of hazardous substances under CERCLA includes any "hazardous waste" as defined in the Resource Conservation and Recovery Act of 1976 (RCRA), as amended, 42 U.S.C. 6901 et seq., and its regulations. The term hazardous materials also includes any nuclear or byproduct material as defined by the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2011 et seq. The term does not include petroleum, including crude oil or any fraction thereof that is not otherwise specifically listed or designated as a hazardous substance under CERCLA Section 101(14), 42 U.S.C. 9601(14), nor does the term include natural gas.

None; no hazardous materials will be used, produced, transported or stored on or within the ROW.

20. Name all the Department(s)/Agency(ies) where this application is being filed.

BLM

I HEREBY CERTIFY, That I am of legal age and authorized to do business in the State and that I have personally examined the information contained in the application and believe that the information submitted is correct to the best of my knowledge.

Title 18, U.S.C. Section 1001, makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious, or fraudulent statements or representations as to any matter within its jurisdiction.

GENERAL INFORMATION
ALASKA NATIONAL INTEREST LANDS

This application will be used when applying for a right-of-way, permit, license, lease, or certificate for the use of Federal lands which lie within conservation system units and National Recreation or Conservation Areas as defined in the Alaska National Interest Lands Conservation Act. Conservation system units include the National Park System, National Wildlife Refuge System, National Wild and Scenic Rivers System, National Trails System, National Wilderness Preservation System, and National Forest Monuments.

Transportation and utility systems and facility uses for which the application may be used are:

1. Canals, ditches, flumes, laterals, pipes, pipelines, tunnels, and other systems for the transportation of water.
2. Pipelines and other systems for the transportation of liquids other than water, including oil, natural gas, synthetic liquid and gaseous fuels, and any refined product produced therefrom.
3. Pipelines, slurry and emulsion systems, and conveyor belts for transportation of solid materials.
4. Systems for the transmission and distribution of electric energy.
5. Systems for transmission or reception of radio, television, telephone, telegraph, and other electronic signals, and other means of communications.
6. Improved right-of-way for snow machines, air cushion vehicles, and all-terrain vehicles.
7. Roads, highways, railroads, tunnels, tramways, airports, landing strips, docks, and other systems of general transportation.

This application must be filed simultaneously with each Federal department or agency requiring authorization to establish and operate your proposal.

In Alaska, the following agencies will help the applicant file an application and identify the other agencies the applicant should contact and possibly file with:

Department of Agriculture
Regional Forester, Forest Service (USFS)
P.O. Box 21628
Juneau, Alaska 99802-1628
Telephone: (907) 586-7847 (or a local Forest Service Office)

Department of the Interior
Bureau of Indian Affairs (BIA)
Alaska Regional Office
709 West 9th Street
Juneau, Alaska 99802
Telephone: (907) 586-7177

Department of the Interior
Alaska State Office
Bureau of Land Management
222 West 7th Avenue #13
Anchorage, Alaska 99513
Public Room: 907-271-5960
FAX: 907-271-3684
(or a local BLM Office)

U.S. Fish & Wildlife Service (FWS)
Office of the Regional Director
1011 East Tudor Road
Anchorage, Alaska 99503
Telephone: (907) 786-3440

National Park Service (NPS)
Alaska Regional Office
240 West 5th Avenue
Anchorage, Alaska 99501
Telephone: (907) 644-3510

Note - Filings with any Interior agency may be filed with any office noted above or with the Office of the Secretary of the Interior, Regional Environmental Officer, P.O. Box 120, 1675 C Street, Anchorage, Alaska 99513.

Department of Transportation
Federal Aviation Administration
Alaska Region AAL-4, 222 West 7th Ave., Box 14
Anchorage, Alaska 99513-7587
Telephone: (907) 271-5285

NOTE - The Department of Transportation has established the above central filing point for agencies within that Department. Affected agencies are: Federal Aviation Administration (FAA), Coast Guard (USCG), Federal Highway Administration (FHWA), Federal Railroad Administration (FRA).

OTHER THAN ALASKA NATIONAL INTEREST LANDS

Use of this form is not limited to National Interest Conservation Lands of Alaska.

Individual department/agencies may authorize the use of this form by applicants for transportation and utility systems and facilities on other Federal lands outside those areas described above.

For proposals located outside of Alaska, applications will be filed at the local agency office or at a location specified by the responsible Federal agency.

SPECIFIC INSTRUCTIONS

(Items not listed are self-explanatory)

- 7 Attach preliminary site and facility construction plans. The responsible agency will provide instructions whenever specific plans are required.
- 8 Generally, the map must show the section(s), township(s), and range(s) within which the project is to be located. Show the proposed location of the project on the map as accurately as possible. Some agencies require detailed survey maps. The responsible agency will provide additional instructions.
- 9, 10, and 12 The responsible agency will provide additional instructions.
- 13 Providing information on alternate routes and modes in as much detail as possible, discussing why certain routes or modes were rejected and why it is necessary to cross Federal lands will assist the agency(ies) in processing your application and reaching a final decision. Include only reasonable alternate routes and modes as related to current technology and economics.
- 14 The responsible agency will provide instructions.
- 15 Generally, a simple statement of the purpose of the proposal will be sufficient. However, major proposals located in critical or sensitive areas may require a full analysis with additional specific information. The responsible agency will provide additional instructions.
- 16 through 19 Providing this information with as much detail as possible will assist the Federal agency(ies) in processing the application and reaching a decision. When completing these items, you should use a sound judgment in furnishing relevant information. For example, if the project is not near a stream or other body of water, do not address this subject. The responsible agency will provide additional instructions.

Application must be signed by the applicant or applicant's authorized representative.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of the information is voluntary. If all the information is not provided, the application may be rejected.

DATA COLLECTION STATEMENT

The Federal agencies collect this information from applicants requesting right-of-way, permit, license, lease, or certification for the use of Federal lands. The Federal agencies use this information to evaluate the applicant's proposal. The public is obligated to submit this form if they wish to obtain permission to use Federal lands.

NOTICES

Note: This applies to the Department of Agriculture/Forest Service (FS)

This information is needed by the Forest Service to evaluate the requests to use National Forest System lands and manage those lands to protect natural resources, administer the use, and ensure public health and safety. This information is required to obtain or retain a benefit. The authority for that requirement is provided by the Organic Act of 1897 and the Federal Land Policy and Management Act of 1976, which authorize the secretary of Agriculture to promulgate rules and regulations for authorizing and managing National Forest System lands. These statutes, along with the Term Permit Act, National Forest Ski Area Permit Act, Granger-Thye Act, Mineral Leasing Act, Alaska Term Permit Act, Act of September 3, 1954, Wilderness Act, National Forest Roads and Trails Act, Act of November 16, 1973, Archeological Resources Protection Act, and Alaska National Interest Lands Conservation Act, authorize the Secretary of Agriculture to issue authorizations or the use and occupancy of National Forest System lands. The Secretary of Agriculture's regulations at 36 CFR Part 251, Subpart B, establish procedures for issuing those authorizations.

BURDEN AND NONDISCRIMINATION STATEMENTS

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0596-0082. The time required to complete this information collection is estimated to average 8 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call toll free (866) 632-9992 (voice). TDD users can contact USDA through local relay or the Federal relay at (800) 877-8339 (TDD) or (866) 377-8642 (relay voice). USDA is an equal opportunity provider and employer.

The Privacy Act of 1974 (5 U.S.C. 552a) and the Freedom of Information Act (5 U.S.C. 552) govern the confidentiality to be provided for information received by the Forest Service.

Hello Ralph,

Per our meeting this afternoon, see below for the current status update on your BLM permit as well as estimated timelines:

- Received Zac Walker's design on 11/18/19.
- Submitted Zac Walker's designs to Josh Spurling for development of BLM exhibit map.
- Requested support from Environmental Survey team for study evaluation.
 - IF studies are required, the permitting process through the BLM may take up to two years. The BLM will inform Idaho Power of required studies after application has been submitted. Anticipated submittal date of application is by 12/31/19.
 - Average initial review by BLM – three months
 - Cultural Study – may take eight months to a year to complete depending on weather conditions and approval by SHPO and BLM
 - Threatened and Endangered Species Study – May take a year or more to complete as each species must be studied in the appropriate season and then approved by BLM.
 - Once studies are received and approved by BLM, internal process may take another three to six months to issue permit for signature.
 - Overall processing time based on the above is anticipated to take up to two years.

Please let me know if you have any questions.

Thank you.

Felisa

complete within a period of five (5) years from the date of such approval, but may limit the permit to a less period than is named in the application, and the permit shall set forth the date when beneficial application of the water to be diverted by such works shall be made. Sixty (60) days before the date set for the completion of the appropriation of water under any permit, the department shall forward a notice to the applicant by certified mail at his address of record of the date for such completion, which said notice shall advise the applicant of the necessity of submitting an affidavit of completion or a request for an extension of time on or before said date; Provided that:

(1) In cases where the applicant is prevented from proceeding with his work by his failure to obtain necessary consent or final approval or rejection from the federal government because of the pendency of an application for right-of-way or other matter within the jurisdiction of the United States, by state, county, city or other local government permitting or administrative action or process related to the applicant's land or water development, or by litigation of any nature which might bring his title to said water in question, the department of water resources upon proper showing of the existence of any such condition, and being convinced that said applicant is proceeding diligently and in good faith, shall extend the time so that the amount of time lost by such delays shall be added to the time given in the original permit, or in any subsequent grant of extension pursuant to subsection (2), (3), (4) or (6) of this section, for each and every action required.

(2) The time for completion of works and application of the water to full beneficial use under any permit involving the diversion of more than twenty-five thousand (25,000) acre feet in one (1) irrigation season for a project of no less than five thousand (5,000) acres, may upon application to the director of the department of water resources supported by a showing that additional time is needed on account of the time required for organizing, financing and constructing works of such large size, be extended by the director of the department of water resources for up to twelve (12) years beyond the initial development deadline contained in the permit, or beyond a grant of extension pursuant to the provisions of subsection (1) of this section: Provided, that no such extension shall be granted unless the applicant for such extension shall show that there has been actually expended toward the construction of said diversion, including expenditures for the purchase of rights-of-way and property in connection therewith, at least one hundred thousand dollars (\$100,000).

(3) The time for completion of works and application of the water to full beneficial use under any permit involving the construction of a reservoir of more than ten thousand (10,000) acre feet capacity or for the appropriation of water to be impounded in such reservoir of more than ten thousand (10,000) acre feet capacity, may be extended by the director of the department of water resources upon application to the director if the permittee establishes that the permittee has exercised reasonable diligence and that good cause exists for the requested extension.

(4) The time for completion of works and application of the water to full beneficial use under any permit involving the diversion of two (2) or more cubic feet per second or the development or cultivation of one hundred (100) or more acres of land may be extended by the director of the department of water resources upon application by the permittee for an additional period up to ten (10) years beyond the initial development deadline contained
