DEPARTMENT OF
WATER RESOURCESSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT – POINT(S) OF DIVERSION

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for a water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right. See the [Application for Transfer Instructions](#) for help completing this form and for mailing addresses of Department offices where your application can be submitted.

Check all that apply:

- ☒ Change diversion point(s) ☐ Add diversion point(s) ☐ Ownership change ☐ Ownership split

1. **APPLICANT(S)** Debra and/or John Harrington Phone 208-462-51482. **MAILING ADDRESS** 54 Wagon Springs Road City Garden ValleyState ID Zip 83622 Email Johnharr01@frontiernet.net

- ☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.
- ☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.
- ☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed. Additional fee(s) are required for water right ownership changes; see Item 9 for the [fee schedule](#).

If the ownership change resulted in the water right(s) being split, how did the division occur? Mark one:

- ☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
- ☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

- ☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

3. **LIST WATER RIGHT NUMBER(S)** 75-14244

- ☒ Attach a copy of the water right(s) as recorded, available at www.idwr.idaho.gov, *Water Right Transfers, Step 1*, or by contacting any Department office.

4. **TOTAL AMOUNT OF WATER** transferred is 0.13 cubic feet per second and/or _____ acre-feet per annum.
(diversion rate) (storage volume)5. **POINT OF DIVERSION** – Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.

- ☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at www.idwr.idaho.gov, *Water Right Transfers, Online Resources*.

New?	Lot	¼	¼	¼	Sec	Twp	Rge	County	Source	Local name or tag #
X			SW	SE	12	24N	19E	Lemhi	Indian Creek	

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Screened pipeline from a higher elevation to enable gravity pressure. System will be fitted with a lockable control and measuring device as required.

- b. Who owns the property at the point(s) of diversion? Vessey Fishing and Trading

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
written consent

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

- d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☒ No

- ☐ If yes and there are multiple owners, attach a Lessor Designation form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an IRS Form W-9.
(Disregard if these items are on file and ownership has not changed.)

7. **MAP** - ☒ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and $\frac{1}{4}$ $\frac{1}{4}$ of section information. The Map Tool, available at maps.idwr.idaho.gov/TransferApplicationLayouts/ provides a satisfactory template for creating the required map.

8. **SIGNATURE** - The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

CHANGE OF WATER RIGHT DIVERSION REQUEST

Vessey Fishing and Trading Company, LLC, "Landowner", provides consent for five applicants: Robert and Lisa Shively, Rick and Kimberly Brown, John Francis Harrington and Debra Sue Harrington, Joel David Bender and Nancy Esther Bender, Robert W Meadville and Roberta J Meadville to construct a water right point of diversion (POD) on the property owned by the Landowner.

Vessey Fishing and Trading Company, LLC is granting this request for a POD to these five water right holders on Indian Creek to provide a new POD that will allow these water rights to be conveyed via underground gravity pressurized pipe to their respective Points of Use.

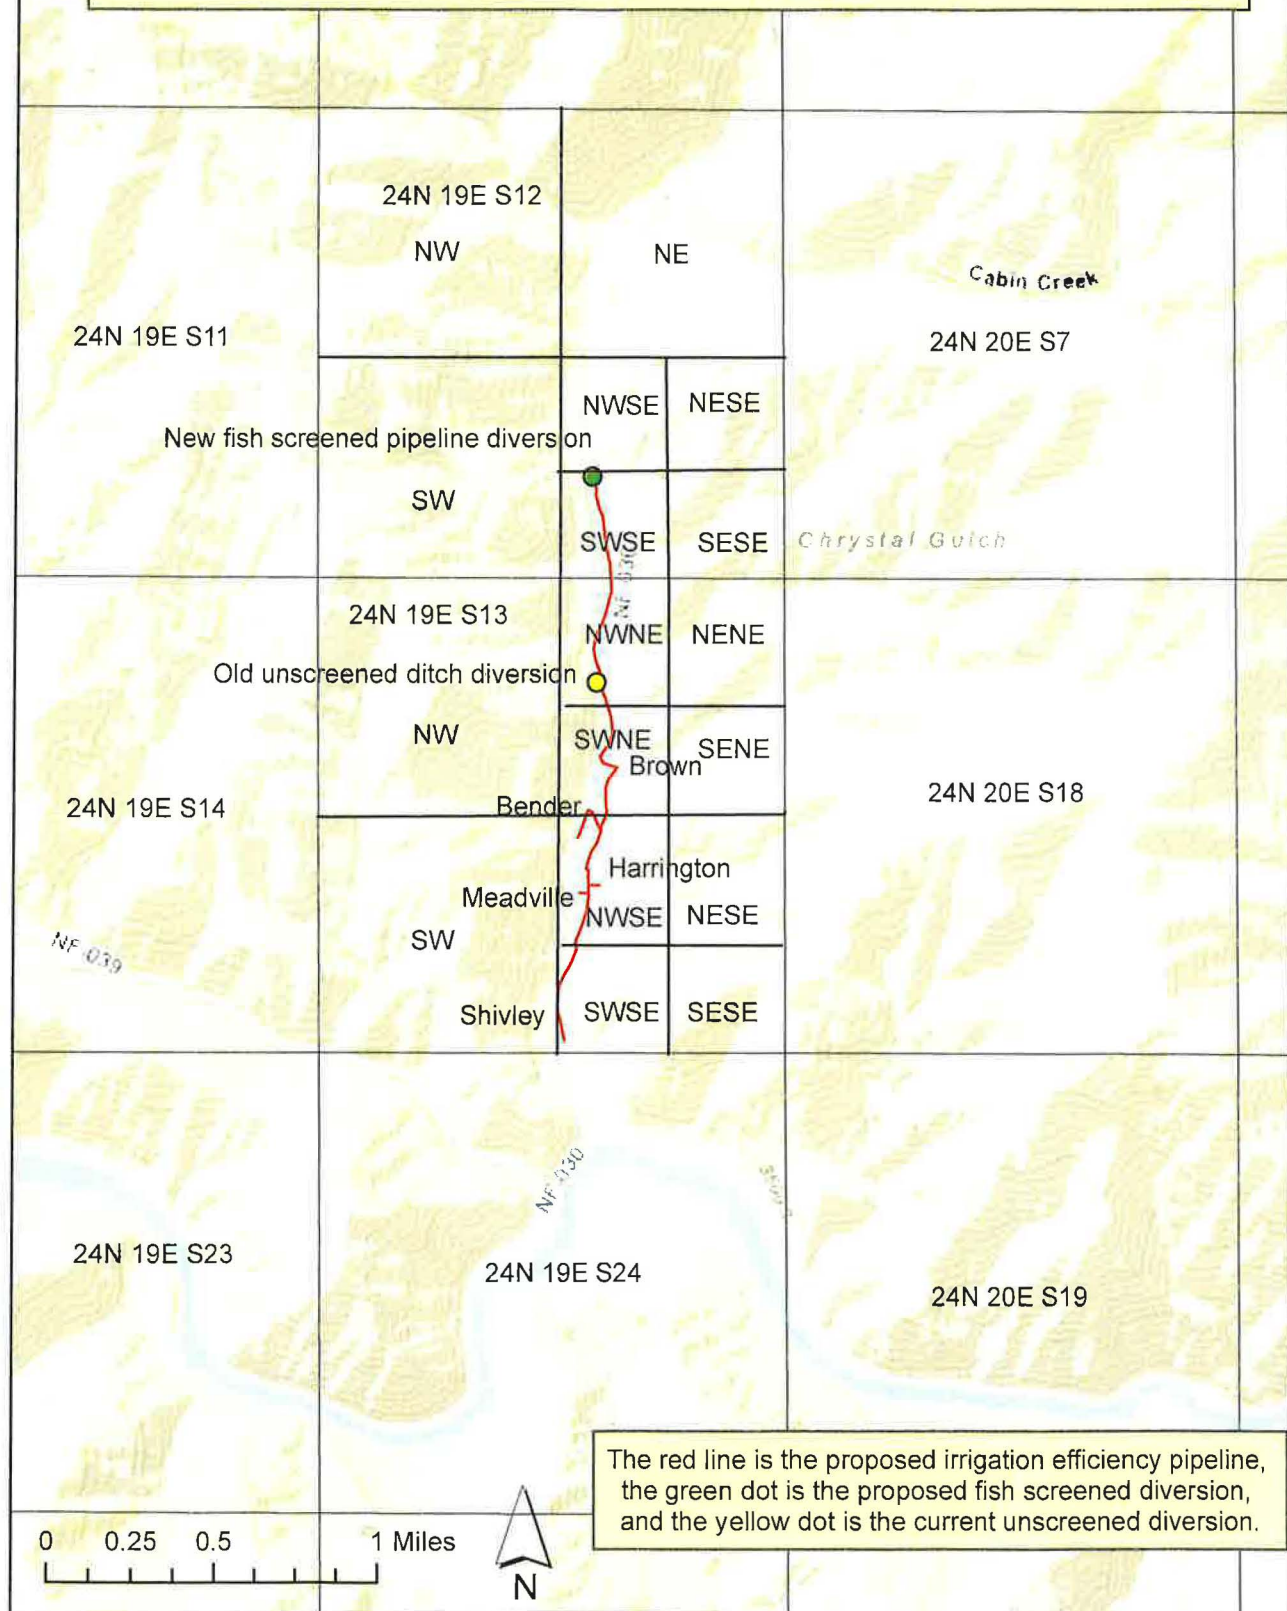

The existing POD location is: W114 10' 02.84" N45 24' 52.04"

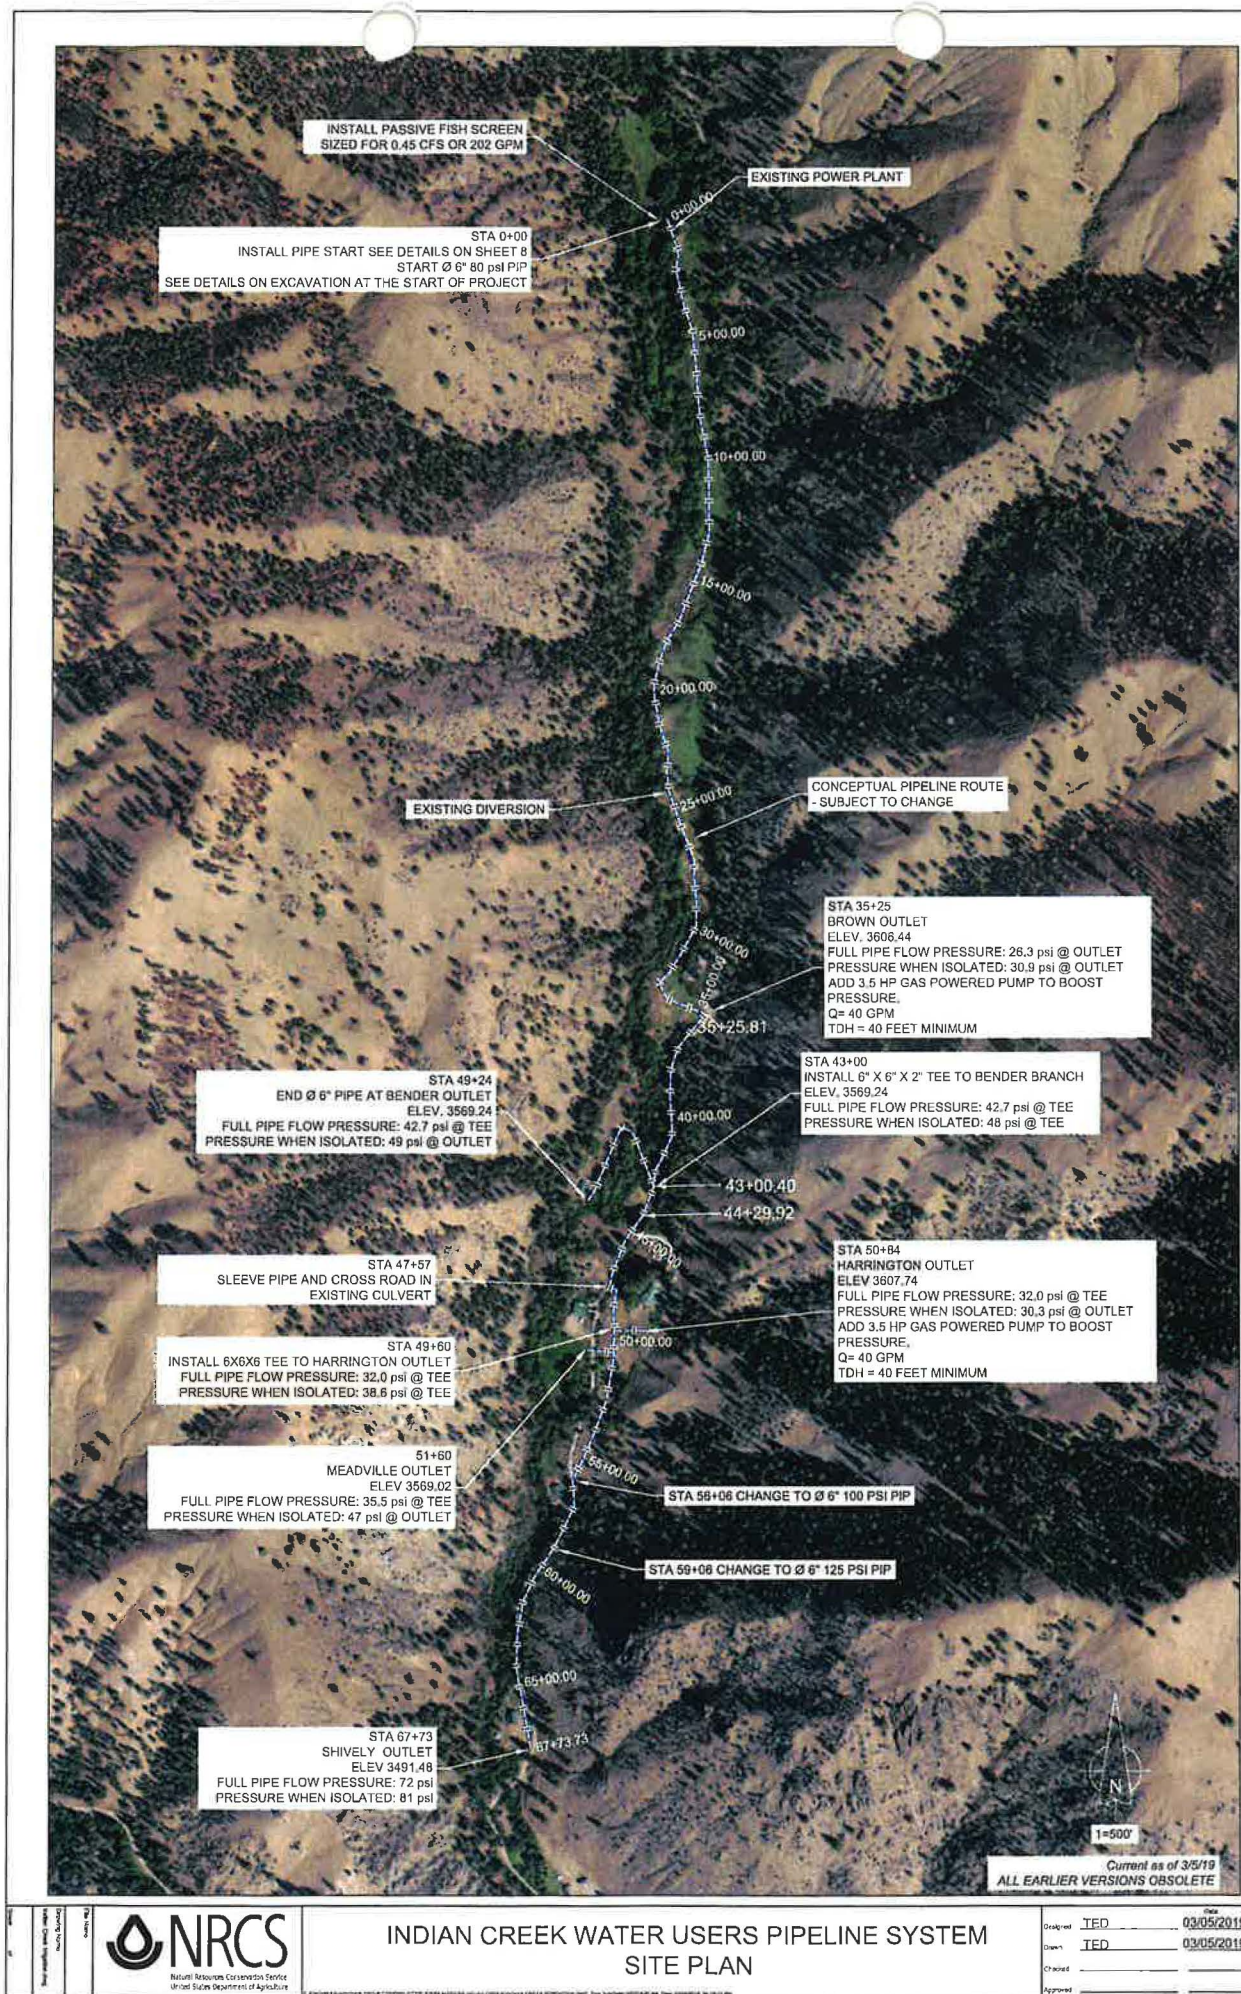

The new proposed POD location is: W114 10' 04.33" N45 25' 15.21"

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 83622**

EAGLE VALLEY RANCH LLC, 446 BOHANNON CREEK RD, SALMON, ID 83467-5045 has filed Application No. 83622 for changes to the following water rights within LEMHI County(s): Right No(s). 74-15740, 74-15891, 74-173, 74-179C, 74-215, 74-2348; to see a full description of these rights and the proposed transfer, please see <https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. The purpose of the transfer is to change a portion of the above rights as follows:

This transfer application proposes adding a diversion of water from Bohannon Creek a tributary of the Lemhi River located in Twp 21N, Rge 23E, Sec 15, SE1/4SE1/4, commonly known as LBC-6 to existing surface water irrigation rights 74-15740, 74-173, 74-2348, 74-179C, & 74-15891.

TRANSFER NO. 83682

JOEL BENDER and NANCY BENDER, 633 FISH HATCHERY RD, HAMILTON, MT 59840 has filed Application No. 83682 for changes to the following water rights within LEMHI County(s): Right No(s). 75-4409; to see a full description of these rights and the proposed transfer, please see <https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. The purpose of the transfer is to change a portion of the above rights as follows:

move the point of diversion for 0.08 cfs from Indian Creek approximately 0.75 miles upstream to a point near the power plant owned by Vessey Fishing & Trading Co. The transfer is for the purpose of getting elevation for an irrigation efficiency project. The project would close an unscreened ditch and install a fish screen on a closed system pipeline.

TRANSFER NO. 83683

RICK DUANE BROWN and KIMBERLY FAYE BROWN, 3585 E 200 N, RIGBY, ID 83442 has filed Application No. 83683 for changes to the following water rights within LEMHI County(s): Right No(s). 75-4379B; to see a full description of these rights and the proposed transfer, please see <https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. The purpose of the transfer is to change a portion of the above rights as follows:

move the point of diversion for 0.08 cfs from Indian Creek approximately 0.5 miles upstream to a point near the power plant owned by Vessey Fishing & Trading Co. The transfer is for the purpose of getting elevation for an irrigation efficiency project. The project would close an unscreened ditch and install a fish screen on a closed system pipeline.

TRANSFER NO. 83684

JOHN F HARRINGTON and DEBRA SUE HARRINGTON, 54 WAGON SPRINGS RD, GARDEN VALLEY, ID 83622 has filed Application No. 83684 for changes to the following water rights within LEMHI County(s): Right No(s). 75-14244; to see a full description of these rights and the proposed transfer, please see <https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. The purpose of the transfer is to change a portion of the above rights as follows:

move the point of diversion for 0.13 cfs from Indian Creek approximately 0.5 miles upstream for the purpose of getting elevation for an irrigation efficiency project. The project will close an unscreened ditch and install a fish screen on a closed system pipeline.

TRANSFER NO. 83685

ROBERTA MEADVILLE and RONALD W MEADVILLE, 60 INDIAN CREEK RD
PO BOX 55, NORTH FORK, ID 83466 has filed Application No. 83685 for changes to the following water rights within LEMHI
County(s): Right No(s). 75-14245; to see a full description of these rights and the proposed transfer, please see
<https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. The purpose of the transfer is to change a portion of the above
rights as follows:

move the point of diversion for 0.10 cfs from Indian Creek approximately 0.5 miles upstream to a point near the power plant owned
by Vessey Fishing & Trading Co. The transfer is for the purpose of getting elevation for an irrigation efficiency project. The project
would close an unscreened ditch and install a fish screen on a closed system pipeline.

For additional information concerning the property location, contact IDWR State office at (208) 287-4800; Protests may be
submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the
Department of Water Resources, 322 E Front St, PO Box 83720, Boise ID 83720-0098 together with a protest fee of \$25.00 for
each application on or before 4/6/2020. The protestant must also send a copy of the protest to the applicant.

RE: Transfer No. 83684
Water Right No(s). 75-14244

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the RECORDER HERALD on 3/19/2020 and 3/26/2020. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

Jean Hersley

Application for permit 75-14971

Transfer No. 83682-Water right 75-4409, 83683- water right 75-4379B, 83684- water right 75-14244, 83685- water right 75-14245 & 83622-water rights 74-173, 74-179C, 74-215, 74-2348 & 74-15740

Dear Interested Party:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right applications. You can find a copy of the application at: <http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>.

This office can publish notice of application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

Please contact this office if you have any questions regarding the applications.

Dave Betts, Water Resource Agent, Sr.
Idaho Department of Water Resources
322 E Front St, Ste 648 PO Box 83720
Boise, ID 83720-0098

Dear Dave,

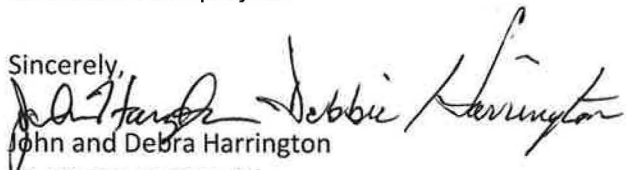

In response to your 11-18-2019 letter concerning water right #75-14244, we are providing the following "additional information" as per your request. We are requesting a "change in point of diversion" for a couple of reasons. One of those reasons is that the current ditch is not providing adequate water for us to be able to fully utilize our whole water right and subsequently be able to irrigate our total water right acreage. We have been doing the best we can under the circumstances. We did not feel it was appropriate to "dam up the whole ditch" to get our fair portion of water. We have down stream neighbors that need to irrigate too. Historically the ditch provided adequate water, but the ditch desperately needs repairs and cleaned out to meet everyone's water needs. However, in anticipation of being able to put in the pressurized water system this coming year, we did not spend time and money fixing a ditch that is scheduled to be abandoned. The new pipe system will allow us to have and utilize the full water right on all the allocated water-right acreage.

We currently irrigate with three methods.

1. We pump out of the ditch to irrigate around the house. We actually paid a guy to go there several times a week during the irrigation season to run the pump and irrigate as well as mow and weed whip. This kept the trees in that area healthy and helped fire-proof surrounding vegetation. The aerial view around the house looks bad because it desperately needs soil amendments and re-seeded. However, with the upcoming plans for a new irrigation system, we chose to wait until next year (after new pipes are installed) to address that need.
2. We divert water from the main ditch into a small diversion ditch that crosses thru a culvert under the road and ditch/flood irrigates the western portion of our property down to the creek. This irrigates trees and pastureland.
3. Another diversion of water flows into a smaller ditch south of the house and ditch/flood irrigates the trees and pasture on the east side of the road to the property boundary. The tree canopy probably hides a lot of the green areas in the photo but the green from the ditch/flood irrigation is apparent in the photo when compared to the adjacent dry hillside. Again, due to restraints of the current ditch and the lack of all the allocated water being available, we could not evenly water the entire acreage. Thankfully under a pressurized water system we should be able to rectify this problem and appropriately water the entire acreage.

We have put notes on the enclosed map to show where the irrigation systems/ diversions are that we have been using to irrigate. We appreciate your help in changing the point of diversion so we can move forward on this project.

Sincerely,

John and Debra Harrington

(#1) Some green - hard
to see under canopy
of trees. This
area was watered
with a pump,
hoses
and sprinklers.

(#3)

The third ditch
← provides water
to this area via
flood irrigation.
This keeps the
swales green and
waters the trees.
This area east of
the main Road
← obviously benefited
from water when
compared to hill sides

Dear John and Debra,

The attached letter went out in today's mail. Please review the letter and send your response within 30 days.

As a portion of your response, you can use the attached map ("POU_blank_83684_Harrington.pdf") to diagram the locations where you have put water to beneficial use over the last five years. Or, you can draw the map online to print for submission using the following link: [Create and Print a Map for Water Right Applications](#).

- The buttons in the top right of the screen can help you with the creation of a map.

In the letter I refer to two portions of Idaho Code. Here are links to those sections:

- [§ 42-222\(2\)](#)
- [§ 42-223](#)

If you have any questions, please contact me by phone or email.

Thank you,

Dave Betts

RE: Verification of recent water use authorized under water right no. 75-14244

Dear Debra and John:

I am in the process of reviewing your application for transfer to move the point of diversion for water right 75-14244. I need additional information to confirm how the water right has been put to use within the last five (5) years. Without additional information there is a risk of forfeiting a portion of your water right according to Idaho Code § 42-222(2).

Typically the Department can use aerial imagery to confirm the use of irrigation rights. Your water right authorizes the irrigation of the full 6.5 acres of your tax parcel, but I am unable to determine the extent of your water use with the available imagery. Because of the limitations of the availability of satellite imagery, please provide any additional information you may have that can be used to demonstrate your water use as authorized by water right 75-14244.

The information you provide could include documentation or descriptions of what and how you have been irrigating, documentation of the use and/or the maintenance of the current irrigation system, photographs of the water use, and/or drawing the boundaries of what has been irrigated on the enclosed aerial photograph of your property. If the water right has not been used to its full extent, you may want to describe the circumstances that have limited your water use. You may also want to consider the exceptions or defenses to forfeiture as listed in Idaho Code § 42-223.

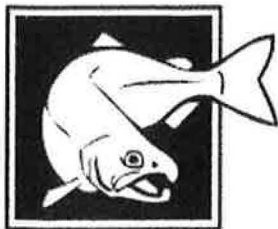

Within 30 days, please submit any additional information you believe the Department may need to verify your use of water right 75-14244 during the previous five (5) years. If the requested information is not provided within 30 days, the Department will continue with the review of your application for transfer as it stands, with the risk of forfeiting a portion of your water right.

If you have any questions, please call me at 208-287-4826, or email me at david.betts@idwr.idaho.gov.

Sincerely,

Dave Betts
Water Resource Agent, Senior

Re: Indian Creek Irrigation Project

The Upper Salmon Basin Watershed Program is assisting Trout Unlimited and five landowners on Indian Creek in the attached applications for one new water right and four new point of diversion transfers for the purpose of getting elevation for an irrigation efficiency project.

The project will close an unscreened ditch. The new POD will have an IDFG fish screen installed to feed a closed system pipeline designed for the cumulative water right for the five downstream landowners.

The system is being designed by the NRCS Salmon Field Office.

Please let me know if you have any questions.

Sincerely,

Chris Gaughan
