Re: Water Right Application - Returned

Dear Applicant:

This office received your application on February 20, 2020. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **#5 Amount of Water**

The amount of water you originally requested is too little to adequately water 15 acres. In order to water 15 acres, we recommend 0.3 cfs (0.02 cfs/acre). Please make the following changes to your application:

- Cross out "0.09" and replace with "0.3 cfs"

- **#6 Total Amount of Water**

Since the amount of water was changed above, the total quantity needs to be updated:

- Cross out "0.11" and replace with "0.32"
- In the space, please add the date it was changed and your initials

The original application is enclosed. Please make the necessary amendments to the original form and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on our website at www.idwr.idaho.gov. Please consult the IDWR website or contact me at this office at 208-334-2190 if you have any questions.

Sincerely,

Shilynn Novak
Water Resource Agent
