4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
  - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
  - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of this water right 35-7720 with all other rights is limited to a total combined annual diversion volume of 315 af at the field headgate for the lands below.
13. Water right 1-7017 is delivered through Tomchak B #1 pump.
14. The right holder must obtain adequate supplemental water for the irrigation season that natural flow is not available.
15. Use of water under water right 1-7017 is subject to control by the watermaster of State Water District No. 1, Snake River.
16. Use of water under water right 35-7720 may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, water right 35-7720 is within State Water District No. 120.
17. A measuring device of a type approved by the Department shall be permanently installed and maintained as part of the diverting works.
18. Right Nos. 1-7017 and 35-7720 are limited to the irrigation of a combined total of 78.7 acres in a single irrigation season.
