Subject: Re: '206' map update for 2020

Jim

The map looks great to me. We will be irrigating everything but the CREP portion so there should be 295 acres or so watered for 2020. Does that sound right? Good visiting with you today by the way.

Thanks for all your help!

Russ

Russ-

Attached is the map I worked up for your '206' acres for the upcoming 2020 irrigation season. I used the CREP layer on our mapping system to get that portion of the 396.0 acre shape. Let me know if it looks accurate and thanks for your help with this today.
