STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources ("Department") has examined this application for temporary approval to use water under the provisions of Idaho Code § 42-202A and has determined that:

 A. The application for temporary approval should be denied because _____

- ☒ B. The application for temporary approval should be approved, since
1. The temporary approval can be properly administered.
 2. Other water sources are not readily available.
 3. The approval is in the public interest.
 4. The approval will not injure known public values associated with the water source or any known water rights.
 5. If the temporary approval is within a water district, the Department has sought and considered the recommendations of the watermaster.

This application is therefore hereby:

 A. DENIED

☒ B. APPROVED, subject to the following conditions:

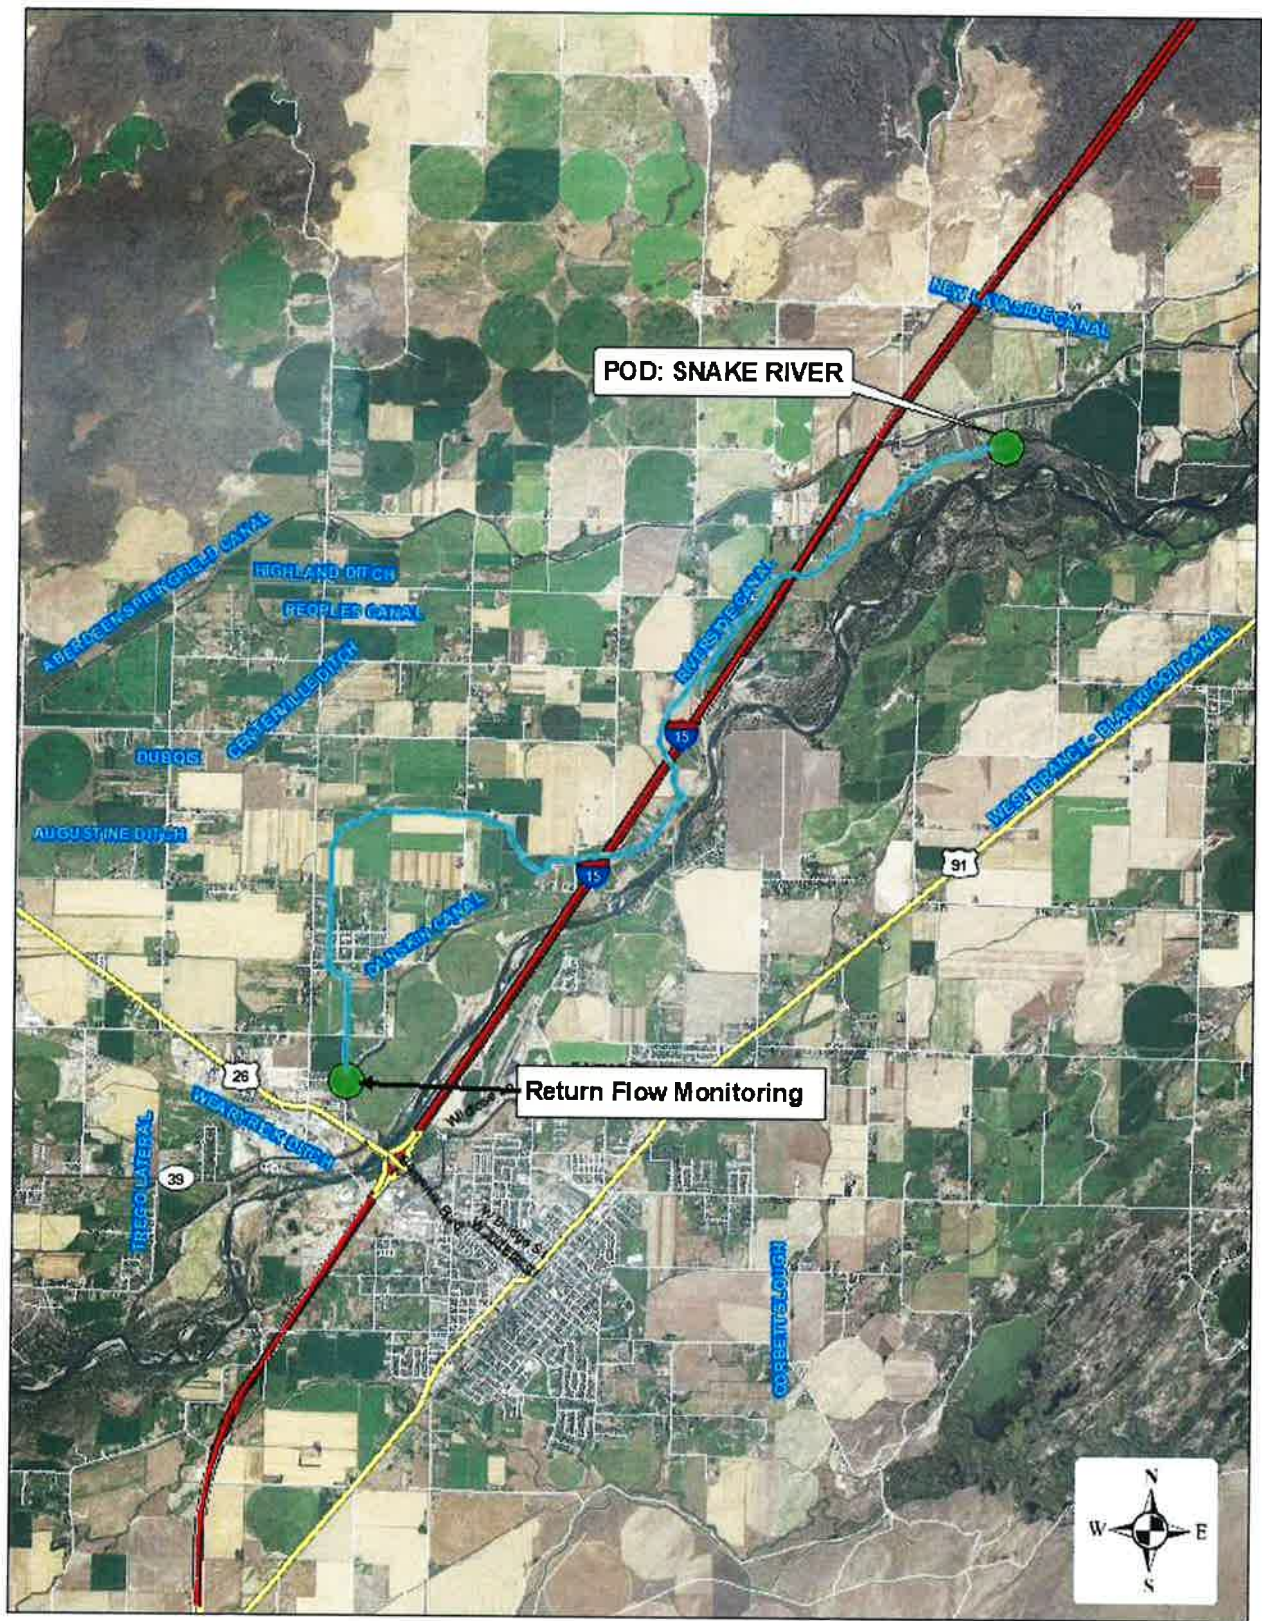

1. Diversion and use of water under this approval is subject to all valid existing water rights.
2. The applicant assumes all risk of the use of the water under this approval.
3. This approval authorizes a maximum diversion volume of 6,600 AF and a maximum diversion rate of 40 cfs.
4. This approval does not grant a right-of-way across the land of another.
5. The Department may cancel or reduce the rate of flow or volume authorized by this approval. For example, the Department may cancel or reduce this approval if it concludes the water use is injuring other water rights or adversely affecting fish, wildlife or other public values.
6. The applicant shall not divert water when downstream minimum flow water rights are not being satisfied.
7. This approval does not create a continuing right to use water.
8. A temporary approval for ground water recharge or prevention of flood damage shall be an opportunistic use of surplus water and shall not interfere with the filling of surface water reservoirs.
9. For a temporary approval authorizing ground water recharge or ground water or surface water remediation, the applicant shall measure and record the weekly quantity of water diverted and report the diversion data to the Department upon request.
10. This temporary approval is not an authorization for the described water use to be used as mitigation or credit for any other purpose.
11. Other: Diversion under this approval is limited to times when the flow at the Snake River near Minidoka gage (#13081500) exceeds 2,700 cfs and excess water is spilling past Milner Dam.
12. This approval expires on Nov 30, 2020.

Signed this 2nd day of March, 2020.

For the Department

RIVERSIDE CANAL CO - TEMPORARY WATER USE APPLICATION: PLACE OF USE SUPPLEMENT

The place of use will be the entire length of the Riverside main canal from the point of diversion on the Snake River and along the channel described in the attached map. For purposes of this application no water will be diverted from the main channels as described in the attached map. Flow measurement at the point of diversion and at the return flow point will be documented daily while water is being diverted under this temporary permit.
