Hello Angie,

I have reviewed and I don't see any issues from IDFG's perspective.

Thanks,

Ann Vonde

Subject: FW: Flying Joseph Ranch LLC Transfer Nos. 81963, 81964, 83193, and Permit Application No. 73-12266 Draft Approvals
Importance: High

Ann,

Good morning! Per Jim's email below, I believe all of the applicant's questions regarding the draft approvals are now addressed. In my 2/9/2020 email, I said I would issue the approvals after 2/24/2020 if I received no response. Now that

the applicant's questions are addressed, I would like to move on issuing these approvals ASAP, before 2/24/2020 if possible. Have you had a chance to review the draft approvals? If so, do you have any questions or concerns? I recognize as a protestant who conditionally withdrew their protest that you would still be able to file a petition for reconsideration if you have concerns once the approvals are issued. However, if a petition can be avoided by addressing questions up front, I'd like to go that route. Can you please let me know if you have any questions or concerns regarding the draft approvals within the next couple of days? If I do not hear from you by Thursday, 2/20/2020, I will work to issue the approvals as drafted on Friday, 2/21/2020.

Thanks,
Angie

Angie,

Now your calculations make sense. I have also confirmed with Troy Zeigler, the ranch manager, that 73-150C & B 73-2159 do NOT irrigate any portion of the proposed 1849A PPU and we will correct that with a future transfer application. Please confirm you will now proceed with approvals of the pending FJR applications.

Thank you.

Jim

Subject: RE: Flying Joseph Ranch LLC Transfer Nos. 81963, 81964, 83193, and Permit Application No. 73-12266 Draft Approvals

Jim,

Good afternoon. Here's a summary of the calculations I used to derive the recommended irrigation and diversion to storage rates for rights 73-10041 and 73-12110:

- 73-10041:

- Pre-transfer rates = 7.06 cfs Irrigation of 2365.6 acres and 0.14 cfs Diversion to Storage
 - The Nature of Use (NOU) change proposed conversion of 73.4 acres
 - To eliminate an enlargement concern regarding overlap with 73-12260, the applicant proposed to give up 35 acres of this right (per letter from Roxanne Brown dated 6/5/2019 attached)
 - $[7.06 \text{ cfs}/2365.6 \text{ acres}] \times 73.4 \text{ acres} = 0.22 \text{ cfs}$
 - $[7.06 \text{ cfs}/2365.6 \text{ acres}] \times 35 \text{ acres} = 0.10 \text{ cfs}$
 - $0.22 \text{ cfs} + 0.10 \text{ cfs} = 0.32 \text{ cfs}$
 - $7.06 \text{ cfs} - 0.32 \text{ cfs} = 6.74 \text{ cfs}$ for Irrigation post-transfer
 - 0.14 cfs (pre-transfer diversion to storage rate) + 0.22 cfs (NOU change from irrigation rate) = 0.36 cfs for Diversion to Storage post-transfer
- 73-12110:
 - Pre-transfer rates = 32.13 cfs Irrigation of 2365.6 acres and 0.67 cfs Diversion to Storage
 - The Nature of Use (NOU) change proposed conversion of 73.4 acres
 - To eliminate an enlargement concern regarding overlap with 73-12260, the applicant proposed to give up 35 acres of this right (per letter from Roxanne Brown dated 6/5/2019 attached)
 - $[32.13 \text{ cfs}/2365.6 \text{ acres}] \times 73.4 \text{ acres} = 1.00 \text{ cfs}$
 - $[32.13 \text{ cfs}/2365.6 \text{ acres}] \times 35 \text{ acres} = 0.48 \text{ cfs}$
 - $1.00 \text{ cfs} + 0.48 \text{ cfs} = 1.48 \text{ cfs}$
 - $32.13 \text{ cfs} - 1.48 \text{ cfs} = 30.65 \text{ cfs}$ for Irrigation post-transfer
 - 0.67 cfs (pre-transfer diversion to storage rate) + 1.00 cfs (NOU change from irrigation rate) = 1.67 cfs for Diversion to Storage post-transfer

Please let me know if you have any questions or need more information regarding my calculations.

When I looked at Cindy's memo, I focused mostly on her indication that right 73-150C is for a separate system and assumed the place of use for 73-150C was accurate in the water right record. I did not account for the possibility that the place of use on record for right 73-150C or 73-2159 could be inaccurate. If that is the case and the ranch manager can confirm Cindy's understanding that the rights in Transfer No. 81963 and these two rights (73-150C and 73-2159) are diverted from different systems and irrigate different lands, I could approve Transfer No. 81963 with the 1849 acre permissible place of use proposed in the transfer application. Approval of Transfer No. 81963 then would create an overlap on paper only, which could be rectified by filing a transfer to correct the place of use of rights 73-150C and 73-2159 later. Please let me know what the ranch manager says about the systems and his knowledge of the place of use for rights 73-150C and 73-2159. We will go from there.

Have a great weekend!

Thanks,
Angie

Subject: RE: Flying Joseph Ranch LLC Transfer Nos. 81963, 81964, 83193, and Permit Application No. 73-12266 Draft Approvals

Angie,

Attached are copies of the current IDWR maps for 73-150C & 73-2159 as well as Cindy Yenter's 8/31/2018 Memo. Cindy describes the "Upper" system as serving ONLY the pivots in Sections 20 & 29. The attached maps show these pivots do NOT overlap the 34A. Shouldn't this overlap be corrected by changing the POU for these two rights and not the PPU requested in T81964? I will try to confirm with our ranch manager that Cindy's description of that system is correct.

Jim

Subject: RE: Flying Joseph Ranch LLC Transfer Nos. 81963, 81964, 83193, and Permit Application No. 73-12266 Draft Approvals

Roxanne,

Good afternoon! On 12/17/19, you and I discussed the questions you and Jim had regarding the draft approvals. It is my understanding I sufficiently addressed all of your questions with one exception: Confirmation the draft approval identifies the acres (and associated water rights) Flying Joseph Ranch proposed to dry up as part of the nature of use change from irrigation to storage in their transfer application. This question was reiterated in Jim's and your emails 2/6/2020 as well.

I confirmed, the acres illustrated in Attachment 7b of the Amended Transfer Application IDWR received on June 6, 2019 are the acres removed from the place of use (acres to be dried up). Attached is an updated draft approval of Transfer No. 81964 with a map illustrating the 1849 acre irrigation permissible place of use established in the draft approval for all the rights in the transfer.

Upon further examination of the previous draft approval (distributed 12/16/2019), it was unclear to me how the individual acre limit for rights 73-10041 and 73-12110 were calculated. The reviewer recommended the approval contain an individual acre limit of 1569 acres for each water right. It is unclear to me how the reviewer calculated 1569 as the acre limit. The following summarizes the calculations as I understand they should be:

The nature of use change applies to rights 73-10041, 73-12110, and 73-147A

73-147A: pre-transfer 172.3 acres: 73.4 acres dried up for nature of use change: post-transfer 98.9 acre limit irrigation

73-10041: pre-transfer 2365.6 acres: 1849 acres (post-transfer irrigation POU) + 73.4 acres to dry up = 1922.4 acres valid irrigation of the 2365.6 acres originally authorized: 1922.4 acres valid -73.4 acres dried up for nature of use change - 35 acres dried up for overlap concern with 73-189 (specifically the split portion sold to Pahsimeroi River Farms 73-12260): post-transfer 1814 acre limit irrigation

73-12110: pre-transfer 2365.6 acres: 1849 acres (post-transfer irrigation POU) + 73.4 acres to dry up = 1922.4 acres valid irrigation of the 2365.6 acres originally authorized: 1922.4 acres valid -73.4 acres dried up for nature of use change - 35 acres dried up for overlap concern with 73-189 (specifically the split portion sold to Pahsimeroi River Farms 73-12260): post-transfer 1814 acre limit irrigation

As a result of these calculations, I changed the individual acre limit from 1569 acres on the original draft transfer approval to 1814 acres for rights 73-10041 and 73-12110. This change is INCLUDED in the attached Transfer No. 81964 draft approval.

Unfortunately, I identified an overlap that will be created as a result of Transfer No. 81964. Currently, the water rights involved in Transfer No. 81964 do NOT overlap the place of use for water rights 73-150C and 73-2159. However, the 1849 acre permissible place of use proposed for Transfer No. 81964 will create a POU overlap with these rights of about 34 acres total in the SENW and NESW of Sec 29, T13N, R23E. Based on my review of Cindy Yenter's Memo dated 8/31/2018, this 34 acres is land in what she called the "Upper (south) system", which she says is a separate system from the system irrigated with the rights inside Transfer No. 81964. If this is indeed the case, I would recommend the 16 acres in the SENW and 18 acres in the NESW of Sec 29, T13N, R23E be EXCLUDED from the permissible place of use to be approved under Transfer No. 81964. This change is NOT INCLUDED in the attached Transfer No. 81964 draft approval. I would appreciate it if you can verify my logic and let me know if you concur with the findings and recommendation. I will make this change when Transfer No. 81964 is approved.

At this point, I believe I have addressed the applicant's questions regarding the 12/16/19 draft approval. I would like the applicant's representatives (you and/or Jim) to review my question regarding the overlap potential described in my last paragraph before a final approval is issued. Meanwhile, I believe the attached Transfer No. 81964 draft approval is in a sufficient state that Ann Vonde can begin her review. I have copied her on this email accordingly. I know the applicant is anxious to finalize these approvals, so I will put a two week timeframe to accomplish the review before the approvals are issued. I did not alter the draft approvals for Transfer No. 81963, 83193, or permit application no. 73-12266 from the 12/16/19 versions previously sent. I look forward to hearing from the parties if there are questions or additional concerns regarding the draft approvals. Please let me know if I can be of further assistance in this matter. If I receive no response, I will remove the 34 acres from the POU of Transfer No. 81964 and issue the approvals for all three transfers and the permit application after two weeks (2/24/2020).

Regards,
Angie

Hello Angie and Jim,

Given this should IDFG wait until after you all have had a chance to make changes before we review? I don't expect to find anything that we want to comment on. Just wanting to do this in the most efficient way.

Let me know what timeframe you will be working under.

Thanks,

Ann Vonde

Angie,

Roxanne Brown and I have gone through your draft approvals and we have a few important issues. Roxanne will be reaching out to you to arrange a meeting at your office to discuss them – I will not attend. I know Roxanne has some family matters to attend to in addition to holiday obligations so I ask that you extend the 14 days to 30 days to be sure we get this done within the imposed deadline.

Thank you for getting these out over last weekend. I'm confident Roxanne and you can resolve the remaining questions and then finalize the approvals within this 30 day timeframe.

MERRY CHRISTMAS!

Jim

Jim and Ann,

Good morning! Attached is a cover letter with the draft approvals for the Flying Joseph Ranch LLC filings referenced above. As indicated in the letter, please let me know if you have any concerns or questions regarding the draft approvals within 14 days. If the Department does not receive a response, we will proceed with issuing the approvals substantially as drafted. The parties will still have an opportunity to petition the preliminary orders once issued as well.

Right Acre Limit: 300.0

POU Total Acres: 1849.0

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 300 acres within the authorized place of use in a single irrigation season.
2. Rights 73-147B and 73-259 when combined shall not exceed the irrigation of 380 acres.

Transfer No. 81964

WATER RIGHT NO. 73-147B
As Modified by Transfer No. 81964

CONDITIONS OF APPROVAL

3. Rights 73-32, 73-147A, 73-147B, 73-147C, 73-150D, 73-189, 73-259, 73-10040, 73-10041 and 73-12110 when combined shall not exceed the irrigation of 1,849 acres.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
5. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 73.
6. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
7. Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.
8. The place of use does not include federal land.
9. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
10. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
11. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

WATER RIGHT NO. 73-12146**As Modified by Transfer No. 81964**

WATER RIGHT NO. 73-12146

As Modified by Transfer No. 81964

CONDITIONS OF APPROVAL

1. The pond established by the storage of water under rights 73-147A, 73-10041, 73-12110 and 73-12146 shall not exceed a total capacity of 86.4 acre-feet or a total surface area of 27 acres.
2. Rights 73-147A, 73-10041, 73-12110, and 73-12146 authorize the diversion of an annual total of 240.2 acre-feet to be used for the initial filling of a pond and for the replacement of losses caused by evaporation from the pond.
3. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 170.
4. Recreation storage, aesthetic storage and wildlife storage uses are for an excavated pond.
5. This right does not authorize the diversion of water from a well.
6. Water stored under this right is subject to fluctuations of the water table caused by changes in the flow of local streams and by diversions under prior ground water rights. This right does not guarantee the maintenance of any particular ground water level.
7. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
8. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

WATER RIGHT NO. 73-32

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 98.9 acres within the authorized place of use in a single irrigation season.
2. Rights 73-32, 73-147A, 73-147B, 73-147C, 73-150D, 73-189, 73-259, 73-2165, 73-10040, 73-10041, and 73-12110 when combined shall not exceed the irrigation of 1849 acres.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
4. The pond established by the storage of water under this right shall not exceed a total capacity of 86.4 acre-feet or a total surface area of 27 acres.
5. Rights 73-147A, 73-10041, 73-12110, and 73-12146 authorize the diversion of an annual total of 240.2 acre-feet to be used for the initial filling of a pond and for the replacement of losses caused by evaporation from the pond.
6. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 73.
7. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversions and points of measurement described above.
8. The appropriator is entitled to the quantity of water described above at the points of measurement:
T13N, R22E, S13, SWNW
T13N, R23E, S19, SWSE
T13N, R23E, S19, SESE
T13N, R23E, S20, SWSW.
9. Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.

WATER RIGHT NO. 73-147A
As Modified by Transfer No. 81964

CONDITIONS OF APPROVAL

10. The place of use does not include federal land.
11. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
12. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
13. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
14. The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.

Right Acre Limit: 240.0

POU Total Acres: 1849.0

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 240 acres within the authorized place of use in a single irrigation season.
2. Rights 73-32, 73-147A, 73-147B, 73-147C, 73-150D, 73-189, 73-259, 73-10040, 73-10041 and 73-12110 when combined shall not exceed the irrigation of 1,849 acres.

Transfer No. 81964

WATER RIGHT NO. 73-147C

As Modified by Transfer No. 81964

CONDITIONS OF APPROVAL

3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
4. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No.73.
5. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
6. Diversion of water from the Pahsimeroi River is limited to those times water is available for diversion under this right and priority from Goldburg Creek at its confluence with the Pahsimeroi River.
7. The appropriator is entitled to the quantity of water described above at the following points of measurement:
T13N, R22E, S13, SWNW
T13N, R23E, S19, SWSE
T13N, R23E, S19, SESE
T13N, R23E, S20, SWSW.
8. Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.
9. The place of use does not include federal land.
10. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
11. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
12. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

WATER RIGHT NO. 73-150D**As Modified by Transfer No. 81964**

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 1814 acres within the authorized place of use in a single irrigation season.
2. Rights 73-32, 73-147A, 73-147B, 73-147C, 73-150D, 73-189, 73-259, 73-10040, 73-10041 and 73-12110 when combined shall not exceed the irrigation of 1,849 acres.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
4. The pond established by the storage of water under rights 73-147A, 73-10041, 73-12110 and 73-12146 shall not exceed a total capacity of 86.4 acre-feet or a total surface area of 27 acres.
5. Rights 73-147A, 73-10041, 73-12110, and 73-12146 authorize the diversion of an annual total of 240.2 acre-feet to be used for the initial filling of a pond and for the replacement of losses caused by evaporation from the pond.
6. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No.73.
7. Prior to the diversion and use of water under this right, the right holder shall install and maintain acceptable measuring devices at the point of injection into Goldburg Creek and at the point of redirection from Goldburg Creek.

WATER RIGHT NO. 73-10041
As Modified by Transfer No. 81964

CONDITIONS OF APPROVAL

8. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
9. The appropriator is entitled to the quantity of water described above at the following points of measurement:
T13N, R22E, S13, SWNW
T13N, R23E, S19, SWSE
T13N, R23E, S19, SESE
T13N, R23E, S20, SWSW.
10. Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.
11. This right does not grant any right-of-way or easement across the land of another.
12. The place of use does not include federal land.
13. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
14. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
15. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
16. The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.

WATER RIGHT NO. 73-12110**As Modified by Transfer No. 81964**

In accordance with the approval of Transfer No. 81964, Water Right No. 73-12110 is now described as follows:

Right Holder: FLYING JOSEPH RANCH LLC
7299 PERIMETER RD S
SEATTLE, WA 98108-3806

Priority Date: 4/1/1969

Source: BIG CREEK

Tributary: PAHSIMEROI RIVER

BENEFICIAL USE	From	To	Diversion Rate	Diversion Volume
AESTHETIC STORAGE	01/01	to 12/31		240.2 af

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 1814 acres within the authorized place of use in a single irrigation season.
2. Rights 73-32, 73-147A, 73-147B, 73-147C, 73-150D, 73-189, 73-259, 73-10040, 73-10041 and 73-12110 when combined shall not exceed the irrigation of 1,849 acres.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
4. The pond established by the storage of water under rights 73-147A, 73-10041, 73-12110 and 73-12146 shall not exceed a total capacity of 86.4 acre-feet or a total surface area of 27 acres.
5. Rights 73-147A, 73-10041, 73-12110, and 73-12146 authorize the diversion of an annual total of 240.2 acre-feet to be used for the initial filling of a pond and for the replacement of losses caused by evaporation from the pond.
6. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 73.
7. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

WATER RIGHT NO. 73-12110

As Modified by Transfer No. 81964

CONDITIONS OF APPROVAL

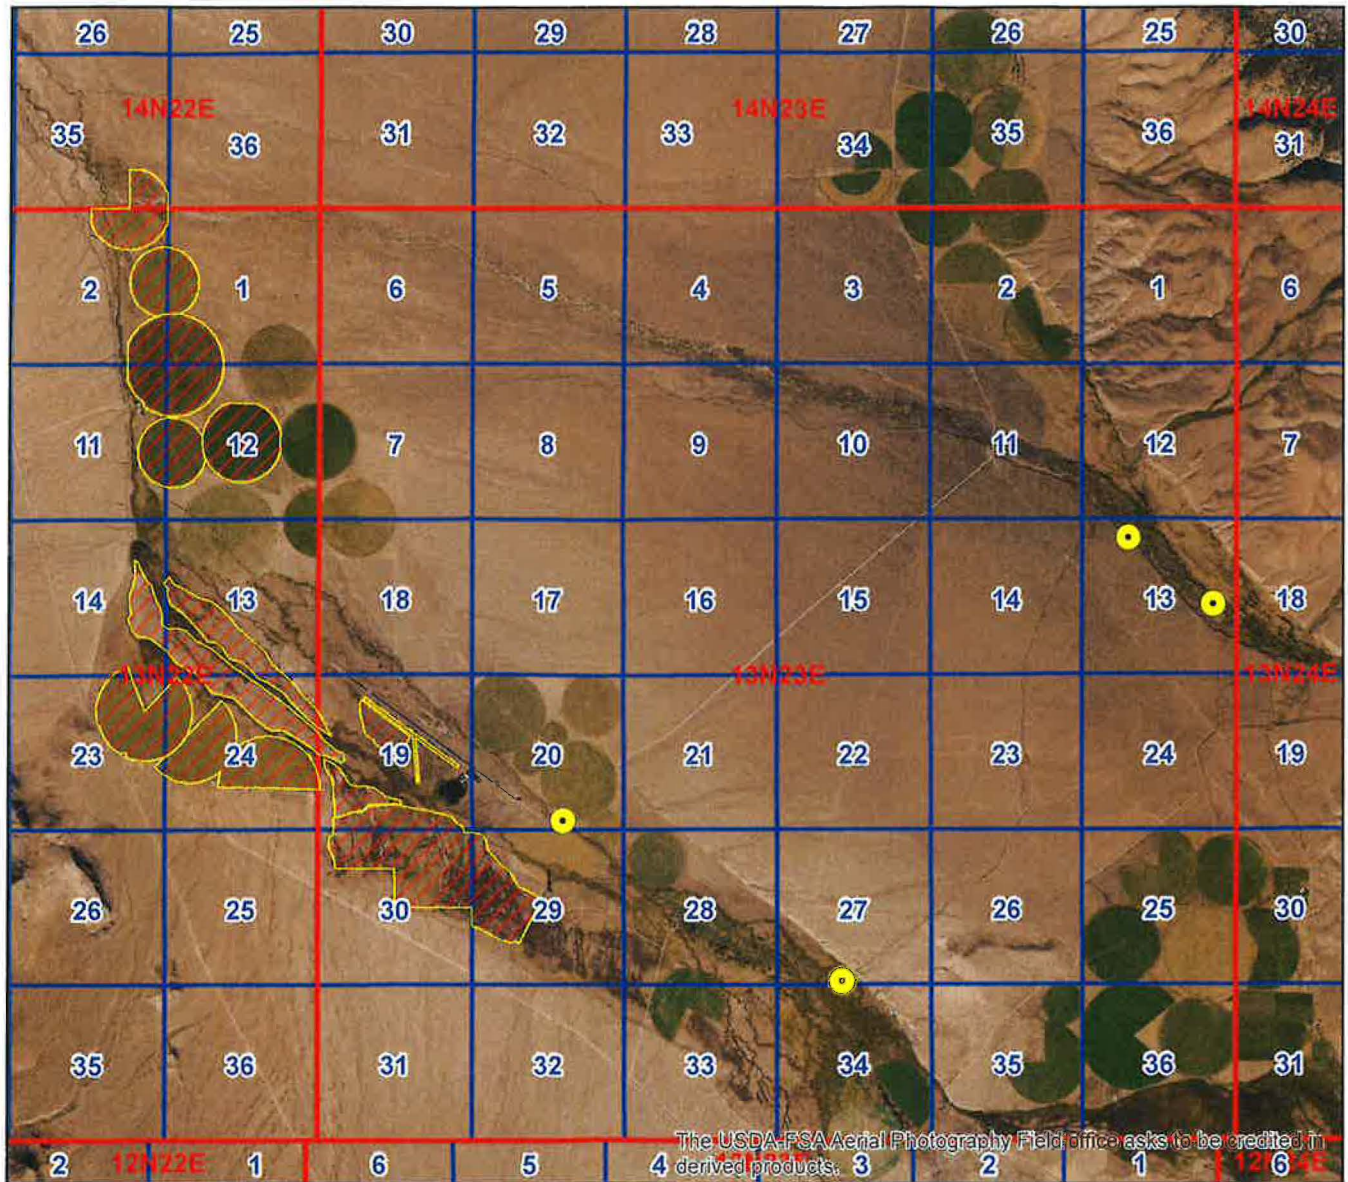

8. Prior to the diversion and use of water under this right, the right holder shall install and maintain acceptable measuring devices at the point of injection into Goldburg Creek and at the point of rediversion from Goldburg Creek.
9. The appropriator is entitled to the quantity of water described above at the following points of measurement:
T13N, R22E, S13, SWNW
T13N, R23E, S19, SWSE
T13N, R23E, S19, SESE
T13N, R23E, S20, SWSW.
10. Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.
11. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
12. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
13. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
14. The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
