Re: Amendment of Permit No. 63-32225
Intermountain Water and Sewer Corp.

Dear Mr. Miller:

Intermountain Water and Sewer Corp is proposing to amend their existing Water Appropriation Permit No. 63-32225. Attached are the following items for processing this application:

1. Form 211: Application for Amendment of a Permit
2. A check for the processing fee in the amount of \$100.00
3. An aerial map showing:
 - a. Proposed Mayfield Springs Planned Community
 - b. Existing and new POD
 - c. Existing POU
 - d. Existing Well No.1
4. Documentation of ownership

Water Appropriation Permit No. 63-32225 will ultimately supply public drinking water to the proposed planned community. The initial phases of the planned community are located exclusively in Elmore County, Idaho. The preliminary phases of the project will require two new wells in addition to Existing Well No. 1 to provide adequate water supply and redundancy. Therefore, we are proposing two new POD that can be seen on the attached aerial map. The existing five POD and PAU for the project will remain the same, and be required to meet future demands in Ada County.

Please let me know if any additional information is required for processing this application.

Sincerely,

S. Bryce Farris
