Subject: Refund of fees for returned Notice of Ownership Change

Sascha-

I am returning a Notice of Change in Water Right Ownership to Craig and Kade Laughlin, who submitted the Notice on December 20, 2019. They placed right 36-10056 on the notice by mistake and submitted a corrected notice on January 13, 2020, without that right. The notice was for a non-split, so the fee was \$25.00, the IDWR receipt number is S037670, and the fee was paid by First American Title Company in Gooding with check #11004. The other right on the notice was 36-84, which was split and processed. The address for First American Title in Gooding is:

**FIRST AMERICAN TITLE CO
301 MAIN ST
GOODING ID 83330-1302**

Let me know if you need anything more and thank you for your assistance.

Re: Change in Water Right Ownership: 36-84 (Split into 36-84 and 36-17168); Ownership of 36-10056
Not Changed

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

According to the corrected Notice received January 13, 2020, the Ownership status of right 36-10056 was not changed. A refund of the \$25.00 fee for that ownership change will be forthcoming.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9909.

RE: Water Right No(s): 36-84 and 36-10056, Notice of Change in Water Right Ownership

Dear Interested Parties:

The Department of Water Resources (Department) acknowledges receipt of your Notice of Change in Water Right Ownership (Notice).

Our review of your Notice indicates that additional information is required before the Department can process the change. The information required is indicated below:

- ☒ Evidence of Water Right Ownership. The Quitclaim Deed which was attached to the Notice appears to attempt to convey the two water rights from C. Joan Wise to C. Joan Wise. The two water rights are currently in the name of Joan and Shelby Wise in our database. Our online research indicates that Shelby Wise may have passed away, and, if that is the case, a signed letter from Joan Wise requesting that Shelby Wise's name be removed from the rights, with a copy of the death certificate, will be required to remove Shelby Wise's name from the rights. No fee is required for this process. At that point, the rights will be in the name of Joan Wise, and a correct warranty deed from her to the Laughlins will be sufficient to convey the rights.
- ☒ Plat of Property or Survey Map usually on file with the county, to clarify the division of the split. This is one of the required items under line #7 on the Notice, and was not included with the Notice.
- ☒ Description of Portion of Water Right resulting from division of water right. The above-referenced Quitclaim Deed appears to retain 0.10 cfs of right 36-84 in C. Joan Wise's name, while the attached Warranty Deed from C. Joan Wise to the Laughlins specifically conveys 1.4 cfs of right 36-84, which is the entire right. The Notice, however, indicates that right 36-84 will be split. If right 36-84 is to be split, it will be necessary to submit a corrected deed indicating the extent of the split. Right 36-84 also contains a stockwater component. If the right is to be split, the deed should dictate how the stockwater portion should be split, if at all.
- ☒ Clarification of Rights in the Notice. After our office plotted out the portion of the property to be retained by Joan Wise, it appears that her retained portion contains the homes on the property. The Notice indicates that the domestic right will be conveyed to the Laughlins. Is this what is intended?

Because the Department cannot process the Notice without proper documentation, we will hold any action on your Notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your Notice and all attachments and your Notice will not be processed.

Also, please note that permit holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Forms to assign ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions regarding this matter, please contact me at (208) 293-9909.

Sincerely,

Jim Bitzenburg
