THIS AGREEMENT, made and entered into this the 20th day of October, 2019, by and between David Ryan Willis and Mary Kathryn Willis, husband and wife trustees of The David & Mary Kathryn Willis Revocable Trust, hereinafter referred to as "Grantors", and James Donald Lingo and Alison Taylor Lingo, Husband and wife, hereinafter referred to as "Grantees".

WHEREAS, Grantors are the owners of certain real property, hereinafter referred to as "Grantors' Parcel", in Clearwater County, Idaho and more particularly described as parcel of land described in the Warranty Deed instrument number 234380, records Clearwater, Idaho, situated in the Southwest 1/4 of the Northeast 1/4, Section 4, township 36 North, Range 2 East, Boise Meridian and described as Parcels 10 and 11 of Record of Survey instrument 224965, records Clearwater County, Idaho.

Grantors desire to grant an easement fully described on the Record of Survey instrument 237022, records Clearwater County, Idaho (ATTACHMENT A) and described in the Legal Description of Easement Willis to Lingo document dated 11-4-2019 and sealed by Bradley C. Cuddy, Professional Land Surveyor and dated 12/8/2019 (ATTACHMENT B) to the Grantees for water and electric lines for the purpose of supplying domestic water from a spring situated on Grantors' Parcel to Grantees' parcel.

For valuable consideration, the receipt and sufficiency of which is acknowledged, Grantors, grant, convey, and warrant to Grantees, a right of way and easement, under, on, and across the Grantors' parcel and the mutual covenants and promises herein contained, the parties do agree as follows:

1. The easement includes access to the spring water collection spring water collection enclosure covering the spring including the water collection manifolds, spring storage tank, spring pump house, and pipelines between the spring water collection enclosure covering the spring and the spring storage tank.
2. Grantors retain, reserve, and shall continue to enjoy the use of the surface of the land subject to this easement for any and all purposes that do not interfere or prevent the use by the Grantees of the easement.
3. Grantors do hereby grant unto Grantees a perpetual right, except as noted in item 9 below, of the easement for ingress and egress in, to, over, through and across the Grantors' Parcel for the purposes to operate, maintain, alter, repair, and replace the Grantees' designated water line, electrical conduit and lines, pump, and electrical systems for the transportation of water, and such other equipment, hereinafter referred to as "Grantees' Equipment", as may be necessary or convenient for operations, and to allow the removal of the Grantees' Equipment.
4. The ownership of the spring water collection enclosure covering the spring including the water collection manifolds, spring storage tank, spring pump house, and pipelines between the spring water collection enclosure covering the spring and the spring storage tank are and remains part of the Grantors' Parcel.

SW

5. The easement is a common access area shared by the Grantees and Grantors for the location of the Grantees' Equipment and the Grantors' designated water line, electrical conduit and lines, pump, and electrical systems for the transportation of water, and such other equipment, hereinafter referred to as "Grantors' Equipment", as may be necessary or convenient for operations. The parties acknowledge and agree that the Grantors shall retain the right to also use the easement for the purpose to operate, maintain, alter, repair, replace, and remove the Grantors' Equipment.
6. The Grantees' Equipment shall be the property of the Grantee and shall be maintained by the Grantee.
7. The Grantors' Equipment shall be the property of the Grantors and shall be maintained by the Grantors.
8. Said easement shall run with the Grantors' Parcel herein described and shall extend to and be binding upon the heirs, executors, administrators, successors, assigns and encumbrancer of the respective parties until the easement is exercised, and except as noted in item 9 below, so long as Grantees water lines, electrical conduit and lines, and electrical systems installed are in use by the Grantee.
9. Grantees are to obtain and maintain a Permit to Appropriate Water from the State of Idaho Department of Water Resources to divert water from the spring for domestic use at the rate not to exceed 0.04 cubic feet per second continuous use including water for irrigation not to exceed 1/2 acre. This Right of Way Agreement of easement is revoked if Grantee does not obtain and maintain a Permit to Appropriate Water from the State of Idaho Department of Water Resources to divert water from the spring.
10. Grantors and Grantee shall bury and keep their designated water line and electrical conduit and lines buried a minimum of 36 inches below the surface of surrounding ground.
11. After any construction and maintenance activities by the Grantees, the Grantees shall restore the surface of the ground along the easement to its original condition prior to the activities.
12. Grantees shall not interfere with the use of the premises by Grantors for stock raising, farming purposes, land upkeep, or access to and use of the spring water collection enclosure covering the spring including the water collection manifolds, spring storage tank, spring pump house, pipelines between the spring water collection enclosure covering the spring and the spring storage tank, and Grantors' designated water lines and electrical conduit and lines along the easement except during the actual performance of permitted construction and maintenance.
13. The Grantors shall not be permitted to use said easement in a manner that will obstruct the Grantees from obtaining water to Grantees' parcel.
14. At no time shall the Grantees interrupt the flow of water from the spring enclosure to the Grantors' water storage tank. If such an event occurs, Grantees shall restore the flow of water to its original condition within 48 hours of interruption with the full cost of repair paid by the Grantees.
15. At no time shall the Grantors interrupt the flow of water from the spring enclosure to the Grantees' water storage tank. If such an event occurs, Grantors shall restore the flow of water to its original condition within 48 hours of interruption with the full cost of repair paid by the Grantors
16. The parties agree to each pay one-half of the cost of repairs and maintenance associated with the upkeep and repair of the spring water collection spring water collection enclosure covering the spring including the water collection manifolds, spring storage tank, spring pump house, and pipelines between the spring water collection enclosure covering the spring and the spring storage tank.

DRW

It is understood that the person securing this Agreement is without authority from Grantee to make any agreement in respect of the subject matter of it not expressed in this document.

RECORD OF SURVEY

A Portion of the Northeast 1/4 of
Section 4, Township 36 North, Range 2 East, Boise Meridian,
Clearwater County, Idaho

NOTES:

- 1) The Basis of Bearing for this survey is S 89°30'29" W along the South line of the Southwest 1/4 of Section 4 between the monument found at the Southwest section corner and the monument found at the Southwest section corner, as shown herein.
- 2) This survey was performed using a Javad Triumph LS GPS.
- 3) This survey has an unadjusted mathematical error of closure less than the legally allowed maximum of one (1) part in five thousand (5000).
- 4) No attempt was made to show all the physical features of the property or all easements, recorded or unrecorded, written or unwritten.
- 5) The boundaries of the parcels shown herein were not fully surveyed during this survey. The boundaries were previously surveyed in the Record of Survey recorded as Instrument 224955 (listed herein as Reference R1). Refer to that Record of Survey for complete boundary information.

SURVEYOR'S NARRATIVE:

The purpose of this survey was to document and monument the easement shown herein.

Lines shown on this survey were established or reestablished as follows:

- 1) The South line of the Southwest 1/4 of Section 4 was reestablished by using the found monuments shown herein.
- 2) The tie line between the South 1/4 section corner of Section 4 and the Southernly right-of-way of Royal Plaza Drive was reestablished by using the found monuments at both ends of that line. (This tie line also appears in Record of Survey Instrument 224955, albeit with a slightly different bearing and distance.)
- 3) The South boundary of Parcel 10 was reestablished by using the the found rebars shown herein. This boundary forms the South boundary of the portion of the easement in Parcel 10.
- 4) Other parcel boundaries are shown for illustrative purposes only. See Note 5.
- 5) The easement was established around existing water utilities.

Dear Mr. Frederick,

We are requesting water rights use from a spring that is located on my friend's property adjacent to our property. My friend's name is David Willis He and his wife Kathryn own the property and the property is deeded under the name of David and Mary Kathryn Willis Revocable Trust. David gave me your name and told me you helped him fill out his water rights application permit form. He also told me he mentioned to you we would be making application for water rights use.

David and Kathryn granted to us an easement across their property to access the spring. I have attached along with our Application for Permit and fee the survey and description of the easement that has been filed with Clearwater County.

If there is anything else you need, or have any questions, please don't hesitate to give me a call.

Regards,

Dear Interested Agencies:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced Water Right application. You can find copies of the application attached to the email and also at: <http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>.

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication. **The deadline for comments on the application is March 9, 2020.**

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the application.

Thank you,

Tammy
