4. If the water rights and/or adjudication claims were split, how did the division occur?
☒ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
5. Date you acquired the water rights and/or claims listed above: August 26, 2019
6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed IRS Form W-9 for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed Lessor Designation form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).
7. This form must be signed and submitted with the following **REQUIRED** items:
☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
☐ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
☒ Filing fee (see instructions for further explanation):
 o \$25 per undivided water right.
 o \$100 per split water right.
 o No fee is required for pending adjudication claims.
☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

Re: Change in Water Right Ownership: 37-7786 (Split into 37-7786 and **37-23218**),

Dear Water Right Holders:

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Bill Mills

Jim,
Sounds good. The following is how the numbers will break down:

37-7786 (parent): Irrigation: 0.07 cfs; 9.8 af for 3.3 acres
Domestic: 0.07 cfs; 1.2 af

Split (Child): Irrigation: 0.05 cfs; 8.2 af for 2.7 acres

If that works for you and your client, I will move forward with processing the ownership change.
Thanks,
Bill

Bill,

My client will agree to a split off of 0.05 cfs and 8.2 acre-feet to irrigate 2.75A on Lot 1A. That should leave 0.09 cfs for domestic use and irrigation of 3.25A on the other lot.

Jim,

I'm currently working on the Ownership Change Notice for water right 37-7786, Robert Baker Revocable Trust. The flowrate amount of 0.055 cfs proposed to be quitclaimed to Lot 1A creates a couple of issues. First of all, since the total flowrate for both domestic and irrigation is 0.140 cfs, the irrigation rate is 0.12 and the domestic rate is 0.08, splitting off more than 0.04 cfs for irrigation will require a reduction in the domestic rate as well. As proposed the domestic rate for the two homes on lot 2A would be reduced to 0.065 cfs on the remaining parent right. The other issue is the rounding limitations of our software. If we split off 0.055 cfs, the system will round the diversion rate to 0.06 cfs and will result in needing to round the remaining parent right down to 0.06 as well. Same story for volume, 8.25 af will round to 8.3 af and we then need to round the remaining down. While the quitclaim is well written and concise, our system limitations result in my reaching out to you and asking how you and your client would like to proceed with processing this split. If you specify which, the child or the parent right to round up or down, we can easily address the rounding issue. Also, if you and your client are comfortable with reducing the domestic rate, then we can proceed with processing the ownership change as submitted. Let me know how you and your client would like to proceed.

Thanks and Happy New Year!

Bill Mills
