Russell D Eldridge
South East Idaho Canal Co.
PO Box 15
St. Anthony, ID 83445

Dear Mr. Eldridge:

I have reviewed the Temporary Change Application submitted in the name of South East Idaho Canal Co. As you know Idaho Code § 42-222 A provides for temporary changes in point of diversion and place of use of water rights when a drought emergency has been declared by the director. A 2003 drought emergency was declared in Fremont County on April 29.

Because of the critical shortage of water anticipated during a drought emergency the Idaho Legislature intended for this emergency process to provide a bit of flexibility in moving water rights around during times when there are few other options available for irrigators.

However, it is not permissible to solve one person's problem at the expense of another. The statutes require the director to assess the following two questions before approving a temporary change:

1. Can the change be properly administered?
2. Will the change injure any other water rights?

In reviewing the subject transfer it was determined that the proposed change would result in an increase in the diversion of natural flow on the Henrys Fork. The mitigating change proposed in this transfer would happen on Falls River would not offset the impact on the Henrys Fork. Consequently the change would diminish the natural flow available to other water rights in that reach of the Henrys Fork. We must assume that this reduction would result in injury to other water users. Consequently, we find it necessary to deny the Temporary Change Application of South East Idaho Canal Co.

Very truly yours,

Ronald D. Carlson
Regional Manager
