RE: Preliminary Order Voiding Permit 63-34624

Dear Sir or Madam:

This letter is in response to your letter dated December 27, 2019, regarding *Preliminary Order Voiding Application for Permit* for Permit No. 63-34624 in the name of Eli Price Development LLC.

Please accept this letter as a Petition for Reconsideration of the Preliminary Order. We apologize for not providing the necessary information in your letter dated August 13, 2019. The application process has been ongoing since August, 2018 and we would regret not being able to complete the application. The pond in question is already constructed and the water rights necessary to be transferred as a part of the mitigation plan are available, so we feel it is in the best interests of both the applicant and the department to allow the application to move forward to completion. We are committed to providing the necessary materials and information for the completion of the application to accomplish the mitigation plan and ensure that the water rights for the Boise River System are maintain and accurately accounted for.

Should you have questions or require further information feel free to contact me at 208.639.6939 or email me at sprillaman@kmengllp.com.

Sincerely,
KM Engineering, LLP
