1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
  - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
  - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
13. The period of use for the irrigation described in this approval may be extended to a beginning date of March 1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before March 15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than February 16, 2007.
14. Rights 63-33169, 63-10813 and 63-33170 when combined shall not exceed a total diversion rate of 3.30 cfs.
15. Right 63-33170 when rented shall not exceed a total diversion rate of 0.06 cfs.

**Narrative:** The Department received this application on November 20, 2019. The current owner signed the application and wishes to place the entire right in the Bank. The parent of this right was decreed in 2007. The water right was used until it was placed in the Bank from 2013- 2015 with no issues of forfeiture. It has not been used since. That is 3 years of non-use. Forfeiture is not an issue. This right with water right 63-33169 & 63-10813, owned by Kuna East Water Corp., is limited to a total diversion of 3.3 cfs. Kuna East rights add up to 3.24 cfs. We can lease the entire water right but it will be limit any rentals to 0.06 cfs, the difference between the Kuna East rights and this one. This right is not currently within a WD.

**RE: APPLICATION TO LEASE WATER RIGHT NO(S). 63-33170 TO THE WATER SUPPLY BANK**

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of the application(s) to lease the above referenced water right(s) to the Idaho Water Resource Board's Water Supply Bank (Bank). The Department is in the process of reviewing your application.

The current owners of the water are Marvin M. Gibbons and Melvin Gibbons. The Department will need to have a Lessor Designation form filled out and signed by both owners. I have enclosed a form for your convenience. Please sign the form and have Melvin sign and return to the Department within 14 days and I will continue processing your request. If the Department doesn't receive the requested information within 14 days, your application will be returned unprocessed.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at [www.idwr.idaho.gov](http://www.idwr.idaho.gov).

If you have any questions, please contact the Department at (208) 287-4800

Sincerely,

Water Supply Bank
